I. CITY ADMINISTRATOR REPORT

J. ADJOURNMENT

WORTHINGTON CITY COUNCIL REGULAR MEETING, SEPTEMBER 12, 2016

The meeting was called to order at 7:00 p.m. in City Hall Council Chambers by Mayor Mike Kuhle with the following Council Members present: Scott Nelson, Diane Graber, Larry Janssen, Mike Harmon, Rod Sankey.

Staff present: Steve Robinson, City Administrator; Dwayne Haffield, Director of Engineering; Brad Chapulis, Director of Community/Economic Development; Janice Oberloh, City Clerk.

Others present: Justine Wettschreck, KWOA; Karl Ebbers-Hillstrom, <u>Daily Globe</u>; Chad Cummings; Nick Hagen; Alan Oberloh; Chris Kielblock.

The Pledge of Allegiance was recited.

AGENDA CLOSED/APPROVED

The motion was made by Council Member Nelson, seconded by Council Member Sankey and unanimously carried to close/approve the agenda as presented.

CONSENT AGENDA APPROVED

The motion was made by Council Member Harmon, seconded by Council Member Graber and unanimously carried to approve the consent agenda as follows:

- City Council Minutes of Regular Meeting August 22, 2016; Special Meeting Work Session of August 26, 2016; Special Meeting Work Session, August 30, 2016; Special Meeting September 6, 2016
- Minutes of Boards and Commissions Water and Light Commission Minutes of August 22, 2016; Housing and Redevelopment Authority Board Minutes of July 26, 2016; Heron Lake Watershed District Board Minutes of June 28, 2016; Worthington Area Chamber of Commerce/Convention and Visitors Bureau Minutes of July 27, 2016; NEON Committee Minutes of July 14, 2016; Center for Active Living Committee Minutes of August 8, 2016
- City Hall Closure the Friday after Thanksgiving (November 25, 2016)
- Application for Exemption Gambling Permit National Wild Turkey Federation -Tomorrow's Turkeys Chapter
- Bills payable and totaling \$2,195,177.20 be ordered paid

RESOLUTIONS ADOPTED APPROVING THE PROPOSED 2016 TAX LEVY COLLECTIBLE IN 2017

At their September 6, 2016 special meeting, Council determined to pre-certify the proposed tax lev collectible in 2017 at \$3,693,604, a 7.32% increase over the 2016 levy. Staff now presented a resolution for Council approval that would approve the proposed levy at the level determined at the September 6, 2016 meeting. Also included was a resolution approving the proposed Worthington

Housing and Redevelopment Authority's 2016 Tax Levy Collectible in 2017 of \$106,000, the same rate as last year.

The motion was made by Council Member Sankey, seconded by Council Member Graber and unanimously carried to adopt the following resolutions approving the proposed 2016 Tax Levies collectible in 2017:

CITY OF WORTHINGTON, MINNESOTA

RESOLUTION APPROVING PROPOSED 2016 TAX LEVIES COLLECTIBLE IN 2017

Be it resolved, by the City Council of the City of Worthington, County of Nobles, State of Minnesota, that the following sums of money are to be levied for the current year, collectible in 2017 upon the taxable property in said city of Worthington, Minnesota for the following purposes:

| LIMITED GENERAL PURPOSE TAX: | 2016/2017 LEVY | SPECIAL TAX LEVIES: | 2016/2017 LEVY |
|-------------------------------------|-------------------|---|----------------------|
| General Fund | 1,244,412 | G.O. Debt Service Funds | |
| Memorial Auditorium Fund | 121,328 | including improvement Bonds (MS 275.50 Subd. 5e and MS 429.091) | |
| Recreation Fund | 917,894 | PIR Series 2009C \$2,710,000 PIR Series 2010A \$1,915,000 | 175,267 188,612 |
| Economic Development Authority Fund | 112,793 | PIR Series 2012A \$2,570,000 PIR Series 2016A \$2,345,000 | 223,417 32,392 |
| Improvement Construction Fund | 648,489 | SUBTOTAL DEBT SERVICE FUNDS | |
| Aquatic Center Facility Fund | 10,000 | Economic Development Tax Abatement | 619,688 19,000 |
| TOTAL GENERAL PURPOSE TAX | 3,054,916 | TOTAL SPECIAL TAX LEVIES | 638,688 |
| | | | |
| | | RECAP OF TAX LEVY TOTALS: | |
| | | General Purpose Levy Special Tax Levies | 3,054,916 638,688 |
| | | TOTAL NET LEVY | 3,693,604 |

WORTHINGTON HOUSING & REDEVELOPMENT AUTHORITY

RESOLUTION APPROVING THE 2016 TAX LEVY COLLECTIBLE IN 2017

BE IT RESOLVED, by the City Council of Worthington and the Housing and Redevelopment Authority of the City of Worthington, County of Nobles, State of Minnesota, that the following sum of money be levied for the current year, collectible in 2017, upon the taxable property in said City of Worthington, Minnesota for the following Purposes:

SPECIAL TAX LEVY CERTIFIED LEVY

2016/2017

HOUSING AND REDEVELOPMENT AUTHORITY TAX LEVY Minnesota Statute 469.033, subdivision 6)

Special Tax for Operations \$106,000.00

NET CERTIFIED LEVY \$106,000.00

Council will discuss the final 2017 final budget and levy at their December 12, 2016 meeting. A Truth in Taxation Hearing will be held at that time, with public input taken prior to adoption of the final levy.

RESOLUTION NO.'S 3683, 3684, 3685, 3686, 3687, AND 3688 ADOPTED DECLARING COST TO BE ASSESSED AND ORDERING PREPARATION OF PROPOSED ASSESSMENT, AND CALLING FOR HEARING ON PROPOSED ASSESSMENT

Staff presented Resolution Declaring Costs to be Assessed and Ordering Preparation of Proposed Assessment, and a Resolution Calling for Hearing on Proposed Assessment at the October 10, 2016 regular City Council meeting for each of the following:

WATER MAIN IMPROVEMENT NO. 106

C.S.A.H. 35 from C.S.A.H. 5 to 1400 feet east.

2016 MISCELLANEOUS UNPAID CHARGES

Removal of Ice and Snow Removal of Solid Waste Removal of Noxious Weeds and Vegetation

Also presented was a Resolution Declaring Reassessment and a Resolution Calling for Hearing on Proposed Reassessment pertaining to the plat of Grand Terrace Addition at the October 10, 2016 regular City Council meeting. The reassessment is to be for each of the following assessments/improvements that had been cancelled due to tax forfeiture:

Storm Sewer Improvement No. 4 Storm Sewer Improvement No. 7 Water Main Improvement No. 74-09

Dwayne Haffield, Director of Engineering, said if it would be anticipated that the October 10, 2016 meeting would not be held, the hearing could be set for any time from October 3 through October 13, 2016.

The motion was made by Council Member Graber, seconded by Council Member Janssen and unanimously carried to adopt the following resolutions as presented:

RESOLUTION NO. 3683

DECLARING COST TO BE ASSESSED AND ORDERING PREPARATION OF PROPOSED ASSESSMENT

(Refer to Resolution File for complete copy of Resolution)

RESOLUTION NO. 3684

CALLING FOR HEARING ON PROPOSED ASSESSMENT

(Refer to Resolution File for complete copy of Resolution)

RESOLUTION NO. 3685

DECLARING COST TO BE ASSESSED AND ORDERING PREPARATION OF PROPOSED ASSESSMENT

(Refer to Resolution File for complete copy of Resolution)

RESOLUTION NO. 3686

CALLING FOR HEARING ON PROPOSED ASSESSMENT

(Refer to Resolution File for complete copy of Resolution)

RESOLUTION NO. 3687

DECLARING REASSESSMENT OF STORM SEWER IMPROVEMENT NO., 4, STORM SEWER IMPROVEMENT NO. 7, AND WATER MAIN IMPROVEMENT NO. 74-09

(Refer to Resolution File for complete copy of Resolution)

RESOLUTION NO. 3688

CALLING FOR HEARING ON PROPOSED ASSESSMENT FOR REASSESSMENT OF STORM SEWER IMPROVEMENT NO. 4, STORM SEWER IMPROVEMENT NO. 7, AND WATER MAIN IMPROVEMENT NO. 74-09

(Refer to Resolution File for complete copy of Resolution)

RESOLUTION ADOPTED VACATING A PORTION OF UTILITY EASEMENT - 1111 JOHNSON AVENUE

The owner of the property located at 1111 Johnson Avenue is proposing to construct a deck on the front of the existing home, where the north line of the deck would be an extension of the north line of the existing structure. An easement had been obtained over the north 6 feet of the lot, which extended 1 foot into the structure that existed at the time the easement was obtained. Dwayne Haffield, Director of Engineering, said that staff has determined that the south 1 foot of the easement for the entire depth of the lot can be vacated. Mr. Haffield also noted that Council approval of the vacation should be subject to concurrence by the Water and Light Commission, who will consider the request at their September 19, 2016 meeting.

The motion was made by Council Member Nelson, seconded by Council Member Sankey and unanimously carried to adopt the following resolution vacating a portion of a utility easement at 1111 Johnson Avenue, subject to Water and Light Commission concurrence:

RESOLUTION

VACATING A PORTION OF AN EASEMENT IN LOT TWENTY, BLOCK ONE, JOHNSON'S SUB-DIVISION

WHEREAS, the owner of Lot 20, Block 1, Johnson's Sub-division of West Half of Block 10, Moulton's Re-survey and Sub-division of Clary's Addition to Worthington desires to construct an addition to a structure currently located over a portion of an easement over a part of said property, and

WHEREAS, that portion of the easement is no longer required by the City.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF WORTHINGTON, MINNESOTA:

1. That the following described portion of the easement described in Document No. 179750, recorded in the office of the County Recorder, Nobles County Minnesota, be hereby vacated and released:

The south 1.00 feet of the north 6.00 feet of Lot 20, Block 1, Johnson's Sub-division of West Half of Block 10, Moulton's Re-survey and Sub-division of Clary's Addition to Worthington, Nobles County, Minnesota.

2. That the City Clerk is hereby directed to file a certified copy of this resolution in the office of the Recorder in and for the County of Nobles, State of Minnesota.

Adopted by the City Council of the City of Worthington, Minnesota, this the 22nd day of August, 2016.

RESOLUTION ADOPTED AUTHORIZING SUPPLEMENTAL AGREEMENT WITH UNION PACIFIC RAILROAD COMPANY FOR THE INDUSTRIAL WASTEWATER SANITARY SEWER I-90 CROSSING REPLACEMENT

Dwayne Haffield, Director of Engineering, noted that the 2016 Industrial Wastewater Treatment Facility capital improvements budget includes \$267,250 for replacement of the sewer line that runs from JBS to the treatment plant where it crosses the I-90 right-of-way. The line extends along the Union Pacific Railroad on the southeast side of TH 60 per a 1964 agreement with the predecessor of the UP RR. This project will require work in the RR right-of-way, therefore, a supplemental agreement to the 1964 agreement with the railroad will be required to complete it.

Because of the age and type of sewer line pipe, there is concern that it might fail - and televising won't necessarily show what we need to know. Mr. Haffield said staff was requesting that Council adopt a resolution authorizing execution of the supplemental agreement with UP Railroad, and to approve the plans and specifications for the project and authorize staff to advertise for bids to be received on October 7, 2016 and considered by Council at the October 10, 2016 meeting. At this point they are still estimating it to be within budget, but there are a couple of items of work that we

don't have a big data base for so we don't know how it's going to be bid locally. Funds for the project will come from utility revenues that have accumulated for projects such as this.

The motion was made by Council Member Sankey, seconded by Council Member Graber and unanimously carried to adopt the following resolution authorizing the supplemental agreement with UP Railroad, and to authorize advertisement for bids to be received on October 7, 2016 for consideration at the October 10, 2016 Council meeting:

CITY OF WORTHINGTON RESOLUTION

IT IS RESOLVED that the City of Worthington enter into a Supplemental Agreement with the Union Pacific Railroad Company supplementing an agreement identified as Audit No. NWE2713.

IT IS FURTHER RESOLVED that the Mayor and the Clerk are authorized to execute the Agreement and any amendments to the Agreement.

RESOLUTION ADOPTED APPROVING MnDOT COOPERATIVE CONSTRUCTION AGREEMENT NO. 1026111 BETWEEN THE CITY OF WORTHINGTON AND THE STATE OF MINNESOTA FOR TH 59 RESURFACING

In 2017 the Minnesota Department of Transportation will be undertaking a Mill and Overlay project of TH 59. The project includes resurfacing of North Humiston Avenue and Oxford Street from the south ramps on I-90 to the new roundabout at the Hwy 59/60 intersection. It also includes pedestrian ramp improvements, traffic signal modifications at Humiston Avenue and Ryan's Road and Humiston Avenue and Oxford Street, together with other upgrades and repairs.

At their April 11, 2016 meeting, Council approved including a bike lane option on Oxford Street from McMillan Street east to Highway 60, to extend any proposed bike lanes that may be included in the Minnesota Department of Transportation's project. No parking would then be allowed on Oxford Street between McMillan Street and Highway 60.

Dwayne Haffield, Director of Engineering, presented a proposed MnDOT Cooperative Construction Agreement between the City of Worthington and the State of Minnesota that outlined cost participation and maintenance responsibilities of both parties. An updated Agreement clarified that the City would only be responsible for bike lane striping and signing, and provided improved language to clarify the maintenance of Oxford from McMillan to Humiston is to be per the local road authority (Nobles County).

Mr. Haffield provided a review of the cost participation, noting that the estimate of \$40,000 for the modification to the signals at Humiston Avenue and Ryan's Road and Humiston Avenue and Oxford

Street is substantially higher than the \$16,000 estimate presented at the April 11th meeting. He explained that, while the costs for the bike lanes came in very close to the estimate, the estimate provided for the signal light modifications was based on experience without detailing to these signals. Once the correct information of what was needed was obtained, and painting was added to the signal light project, the result was the higher cost estimate. We would be using our state-aid dollars for the local shares.

The motion was made by Council Member Nelson, seconded by Council Member Janssen and unanimously carried to adopt the following resolution approving the cooperative construction agreement:

CITY OF WORTHINGTON RESOLUTION

IT IS RESOLVED that the City of Worthington enter into MnDOT Agreement No. 1026111 with the State of Minnesota, Department of Transportation for the following purposes:

To provide payment by the City to the State of the City's share of the costs of the revised signal system, and signing and striping construction and other associated construction to be performed upon, along and adjacent to Trunk Highway No. 59 from the north junction with Trunk Highway No. 60 to Trunk Highway No. 90 within the corporate City limits under State Project No. 5304-38.

IT IS FURTHER RESOLVED that the Mayor and the Clerk are authorized to execute the Agreement and any amendments to the Agreement.

REQUEST FOR SITE PREPARATION ASSISTANCE APPROVED - THK OF MINNESOTA, LLC

THK of Minnesota, LLC, was requesting site preparation assistance for a proposed 3,225 square foot commercial facility to be constructed at 1036 Oxford Street, for the costs affiliated with the redevelopment of the subject property, including the demolition of the existing structure. The legal description of the property is as follows:

Lot 4, Block 2, Auditor's Plat of Chermak Sub-Division, City of Worthington, Nobles County, Minnesota, EXCEPT that part of said lot which lies northerly of a line run parallel with and distance 45 feet southerly of Line 1 described below:

Beginning at a point on the north line of Section 23, Township 102, Range 40, Nobles County, Minnesota, distant 1970.1 feet west of the northeast corner thereof; thence run westerly on the north line of said Section 23 for 10 feet and there terminating.

Staff determined that the demolition of the structure is the only eligible expenditure under the Site Preparation Program guidelines, and is estimated by the applicant to be \$24,654. Brad Chapulis, Director of Community/Economic Development, said guidelines limit the amount of assistance the City may consider at the present value of 10 years of property taxes at a market rate of return(3% discount rate). The Nobles County Assessor's office has estimated the taxable market value to be approximately \$371,000 upon completion of construction, not including any tenant bail out. Based on the 2016 tax levy, the project would generate approximately \$11,615 in real estate taxes - more than a 380% increase from the 2016 payable real estate taxes. The maximum amount that could be considered is \$64,014, which is more than the \$24,654 of eligible expenditures. Nick Hagen, representing THK of Minnesota, LLC, was present at the meeting and discussed the project with Council, noting it will be a Papa Murphy's take and bake pizza business on one side of the new facility and retail space on the other side.

Staff reviewed the application and was recommending approval of site preparation fund assistance of an amount not to exceed \$24,654 for costs affiliated with the demolition of the structure on the subject property, and such approval be subject to the applicant providing proof of competitive bidding and verified quantities.

The motion was made by Council Member Janssen, seconded by Council Member Harmon and unanimously carried to approve the site preparation fund assistance of an amount not to exceed \$24,654 for costs affiliated with demolition of the existing structure on the property, and that the applicant provides proof of competitive bidding and verified quantities.

COUNCIL COMMITTEE REPORTS

<u>Mayor Kuhle</u> - Reported on the Commissioners on Wheels meeting here in town last week - also attended the Southwest Regional Development Commission meeting, and has a copy of their financial report if anyone was interested.

<u>Council Member Nelson</u> - Attended the City Budget meetings, and reported on a Joint Jurisdictional meeting.

<u>Council Member Graber</u> - Thanked the Memorial Auditorium for their Tribute to the Eagles presentation. Also reported on the following meetings: Chamber of Commerce Convention and Visitors Bureau, Planning Commission, City Budget meetings, Memorial Auditorium Advisory Board.

Council Member Janssen - Reported on a NEON meeting.

<u>Council Member Harmon</u> - Attended a tour with Missouri River Energy Systems at Wheatland, Wyoming, also attended the City Budget meetings, and reported on the Water and Light Commission last Monday. The CAL meeting this morning was cancelled.

<u>Council Member Sankey</u> - Reported on the Heron Lake Watershed District Budget meeting, the City Budget meetings, attended the meeting with Lieutenant Governor Tina Smith here in Worthington September 7th, and reported on the NEON meeting held September 8th.

CITY ADMINISTRATOR'S REPORT

Steve Robinson, City Administrator, reported that Police Officer interviews were held to fill two positions open in the Public Safety Department. Interviews had also been conducted to fill a Public Works Operator position. He spent two and half hours at JBS today answering City related questions and addressing concerns from their employees. The soccer fields, housing, and a community clean up program were subjects that came up. He plans on doing the program about every three months.

<u>CLOSED SESSION UNDER MINN. STAT. 13D.05, SUBD. 3(C) - OFFER TO SELL REAL</u> ESTATE, PARCEL 31-0628-000

Mayor Kuhle announced that Council would be going into closes session under Minn. Stat. 13D.05, Subd. 3(c) to discuss an offer to sell real estate identified as Parcel No. 31-0628-000. Those not eligible to be present at the closed session left the meeting.

The motion was made by Council Member Nelson, seconded by Council Member Harmon and unanimously carried to close the meeting at 7:47 p.m.

The motion was made by Council Member Janssen, seconded by Council Member Sankey and unanimously carried to re-open the meeting at 8:09 p.m.

ADJOURNMENT

The motion was made by Council Member Sankey, seconded by Council Member Janssen and unanimously carried to adjourn the meeting at 8:13 p.m.

Janice Oberloh, MCMC City Clerk

WATER AND LIGHT COMMISSION MINUTES REGULAR MEETING SEPTEMBER 6, 2016

The regular meeting of the Water and Light Commission was called to order in the Worthington Public Utilities Conference Room at 3:00 P.M. by President Gary Hoffmann with the following members present: James Elsing, Aaron Hagen, Michael Harmon and Lyle Ten Haken.

Staff members present were Scott Hain, General Manager; Deb Scheidt, Secretary to the Commission

Others present: Darlene Macklin and Brad Meester, Chamber of Commerce Representatives

AGENDA ADDITIONS/CLOSURE

A motion was made by Commissioner Ten Haken, seconded by Commissioner Hagen and unanimously carried to close the agenda as presented.

CONSENT AGENDA APPROVED

A motion was made by Commissioner Harmon, seconded by Commissioner Elsing and unanimously carried to approve the consent agenda as follows:

- Water and Light Commission minutes of the regular meeting held on August 22, 2016
- Utility bills payable totaling \$86,438.26 for August 26 and September 2, 2016

WORTHINGTON CONCIERGE PRESENTATION

Darlene Macklin and Brad Meester, representatives from the Chamber of Commerce, provided a presentation on the Worthington Chamber Concierge Program. The program is designed to acquaint prospective families considering a move to Worthington with the community and surrounding area. The Chamber presented an annual budget of \$10,000 to build and promote the program which includes expenses for promotional materials (\$1,000), media marketing (\$2,000) and contract support (\$7,000).

The Chamber representatives requested financial assistance from Worthington Public Utilities in the amount of \$2,500. The Chamber has also requested assistance from Worthington Regional Economic Development Corporation (WREDC) and the City of Worthington. The Chamber's annual contribution is \$2,500.

After discussion on whether to provide funding assistance, utility staff was directed by the Commission to pro rate funding for the program for 2016, incorporate \$2,500 into the 2017 budgets and request semi-annual reports on the program from the Chamber.

Water and Light Commission Minutes September 6, 2016 Page 2

AGREEMENT TO AMEND SECTION 2.3.2(a) OF THE LEWIS & CLARK REGIONAL WATER SYSTEM AMENDED AND RESTATED COMMITMENT AGREEMENT (ARCA)

Scott Hain, General Manager, provided the Commission with a copy of the proposed Agreement to Amend Section 2.3.2(a) of the Lewis & Clark Regional Water System Amended and Restated Commitment Agreement (ARCA). Mr. Hain reported that the existing ARCA language prohibits the use of funds from the Capital Improvement Fund until construction of the entire system is 100% complete. Since it has become apparent that it may be several years before construction of the entire system is complete and the need for capital improvements may become necessary before that time, the proposed Agreement to Amend Section 2.3.2(a) of the ARCA was drafted to remove the restriction. The proposed Agreement to Amend Section 2.3.2(a) must be considered and approved by the governing bodies of all twenty Lewis & Clark members.

A motion was made by Commissioner Elsing, seconded by Commissioner Ten Haken and unanimously carried to approve the agreement and authorize the General Manager to execute the agreement on Worthington's behalf.

SUPPLEMENTAL AGREEMENT – UNION PACIFIC RAILROAD COMPANY

Scott Hain, General Manager, provided the Commission with a copy of a proposed supplemental agreement with Union Pacific Railroad Company which would modify an existing agreement and allow for the installation of new electric service across the railroad right-of-way in the vicinity of Flower Lane.

A motion was made by Commissioner Ten Haken, seconded by Commissioner Hagen and unanimously carried to approve the proposed supplemental agreement as presented and to authorize the General Manager to execute the agreement on Worthington's behalf.

WELL LEVELS

Scott Hain, General Manager, provided the Commission with an update on the status of the Lake Bella wells.

GENERAL MANAGER ANNUAL PERFORMANCE EVALUATION

A motion was made by Commissioner Elsing, seconded by Commissioner Hagen and unanimously carried to close the meeting at 3:50 p.m. under Minnesota Statute 13D.05, Subdivision 3 (a) to discuss the General Manager's annual performance evaluation.

A motion was made by Commissioner Elsing, seconded by Commissioner Hagen and unanimously carried to come out of closed session at 4:47 p.m.

President Hoffmann reported that the results of the General Manager's performance evaluation revealed that, overall, Mr. Hain exceeded the Commission's expectations over the past year in all

Water and Light Commission Minutes September 6, 2016 Page 3

areas evaluated. While the Commission felt that an adjustment in salary was warranted based on the results of the evaluation, it was decided to defer a decision on a salary adjustment pending the outcome of the organization-wide compensation study that is currently underway.

COMMISSION COMMITTEE REPORTS

Commissioner Ten Haken reported on the tour of the Laramie River Station power plant and the Dry Fork coal mine that he participated in on August 24-25. He thanked the Commission for the opportunity and indicated that the tour was very informative and worthwhile.

ADJOURNMENT

A motion was made by Commissioner Hagen, seconded by Commissioner Ten Haken and unanimously carried to adjourn the meeting at 5:04 P.M. President Hoffmann declared the meeting adjourned.

Deb A. Scheidt Secretary to the Commission

Planning Commission Minutes September 6, 2016 Page 1 of 2

Planning Commission/Board of Appeals Minutes September 6, 2016

The meeting was called to order at 7:00 p.m. by Ken Moser in the City Hall Council Chambers.

Members Present: Amy Ernst, Diane Graber, Ken Moser, Amy Woitalewicz

Members Absent: Bob Bristow, Thi Synavone, Ryan Weber

Staff Present: Brad Chapulis, Director of Comm/Econ. Dev, Angela Thiner, Secretary

Approval of Minutes

A motion to approve the minutes of the August 2, 2016 meeting was made by Diane Graber, seconded by Amy Ernst and passed unanimously.

Planning Commission Business

Board of Zoning Appeals Action

Parking Plan Approval - 1036 Oxford Street (Variance Condition)

The Planning Commission approved a variance application at its August 2, 2016 meeting which will allow the applicant, Mr. Nicholas Hagen, the ability to exceed the floor to area ratio as well as encroach side and front setbacks for the construction of a 3,225 square foot retail building on property located at 1036 Oxford Street. The approval of the variance came with 2 conditions:

Condition 1: Front of the building shall be landscaped or remain green space to prohibit traffic in front of the building.

Condition 2: A parking plan for proposed and future parking stalls shall be submitted and approved by the Board.

The commission discussed the parking plan and how it fit into the Oxford Street Redevelopment Plan. Brad Chapulis noted that there are no current rules and regulations in place that reflect the goals and objectives of the redevelopment plan, but encouraged the applicant to implement them. Of the 4 site plans the applicant submitted, staff is recommending the approval of the plan that embraced the spirt of the redevelopment plan the most.

Diane Graber made a motion to approve the site/parking plan dated August 23, 2016 per staff's recommendation. Amy Woitalewicz seconded the motion and it passed unanimously.

Planning Commission Minutes September 6, 2016 Page 2 of 2

Other Business

Brad Chapulis discussed addressing potential text amendments within the Zoning Ordinance, specifically referring to the use of "conditional use permit" and "special use permit". The commission agreed that "conditional use" rather than "special use" should be used throughout the Ordinance. Brad Chapulis stated he would work with City Attorney, Mark Shepherd, to eliminate "special use permit" from the Zoning Ordinance.

The Planning Commission discussed the development/implementation of a NAICS code. Staff is of the opinion that by developing a NAICS code it will give a holistic view of what should/should not be allowed in a district by conditional use.

Chairman Moser asked for an update on Journey Ministries. Staff responded that the group has been meeting in their MAX 493 location on Oxford Street, other than that Staff has not heard anything but will get an update for commission members.

During the months where the Planning Commission agenda is lighter, Staff would like to discuss educational topics which the Commission would be interested in learning about. Diane Graber requested to review documents regarding planning within the city. More specifically any future plans for the City as they come up. Amy Woitalewicz would like the commissioners to be educated on what is coming down the pipeline concerning the City/Planning Commission 6-12 months out.

The next Planning Commission meeting will be held on Tuesday, October 4, 2016, at 7:00 p.m. in City Hall Council Chambers.

Adjournment

As there was no further business before the Planning Commission, Amy Wotalewicz made a motion to adjourn the meeting at 7:42 p.m.

Angela Thiner Secretary

Heron Lake Watershed District Regular Meeting July 19, 2016

1. Call to Order

Jim Buschena called the meeting to order at 8:00 p.m.

Managers present: Jim Buschena, Wayne Rasche, Gary Ewert, and Harvey Kruger Manager absent: Bruce Leinen

Staff: Erin Nordquist, Catherine Wegehaupt, Chloe Evenson, Cole Sinnamon, and Jan Voit

Others: Rose Schultz, Jackson County; Wayne Drealan, Drealan, Kvilhaug, Hoefker, and Company; Dave Thiner, Murray County; Mona Henkels, Murray SWCD; Kevin Stevens, Cottonwood County; and Jerry Christopherson

2. Agenda

Wayne Rasche made a motion to approve the agenda. Gary Ewert seconded this. Motion carried unanimously.

3. 2015 Audit Report

Wayne Drealan, Drealan, Kvilhaug, Hoefker, and Company (DKH and Co.) presented the 2015 financial statement, which included an explanation of the income, expenditures, decrease in net position, and the Public Employees Retirement Association (PERA) unfunded liability accounting changes for 2015. DKH and Co. is able to give a clean, unqualified audit opinion in relation to the overall audit.

There was a very significant change in the accounting standard relating to PERA for 2015. The HLWD was required to adopt Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27 for the year ended December 31, 2015. This standard necessitated identifying the long-term obligation to cover the pension benefits of all employees enrolled in this program.

Reports indicate that on a statewide basis the projected benefit payments are underfunded by approximately 15 percent. The HLWD's unfunded portion is approximately 15 percent of \$114,015, which is \$17,102. Contributions are locked at a rate set by the legislature. Investment returns are through bonds and the stock market, which has been subject to volatility and not a high return percentage. There are no current legislative plans to increase the contribution rates for agencies or personnel. At some point the legislature will have to address the funding through contribution increases.

The recordkeeping provided to DKH and Co. is excellent. The information is modified for accrual adjustments for accounts payable and receivable. The general operating budget is consistent. The comparison of the general operating budget with expenditures is good. It reflects the tax levy funding was utilized for the operating budget. The grant costs were higher in 2015, which brought the overall fund balance down.

Wayne also provided the representation letter, which requires signatures from the HLWD once the audit report is approved. The required reporting form will also be completed and submitted to the Office of the State Auditor.

Wayne Rasche made a motion to approve the 2015 audit report. Gary Ewert seconded this. Motion carried unanimously.

4. Quarterly Meeting with Commissioners

Rose Schultz talked about two large ditch improvement projects in Sioux Valley Township. One of the systems encompasses 23,000 acres with an estimated 60 miles of tile and three proposed holding ponds. She also said that the county is in the process of filing an amendment on Ditch 124 because of discrepancies in the benefits.

Kevin Stevens said that they are continuing to have discussion about buffer strips and are encouraged to attend meetings to learn the latest. His term, and that of Norm Holmen, are up. Both of them are running again. The county will be sponsoring active shooter response training for all employees. A new public warning system will be installed by the end of the month. New playground equipment was installed at Talcot Lake County Park.

Dave Thiner said that they have been doing much of the same as the other counties – buffers and ditches. A system that was started in 2014 was just finished. The county is in litigation with Cottonwood County over a ditch system. There are still lots of weeds in the Fulda Lake and county park usage is down about a third of what it had been in past seasons.

5. Minutes

Gary Ewert made a motion to approve the minutes of the June 28, 2016 regular meeting. Harvey Kruger seconded this. Motion carried unanimously.

6. Treasurer's Report

Jan Voit presented the treasurer's report and bills payable. Harvey Kruger made a motion to approve the treasurer's report. Jim Buschena seconded this. Motion carried unanimously.

7. 2017 Preliminary Budget Hearing Notice

Discussion was held regarding a comparison of expenditures per category over the last five years, funds in each category, and the possible need for more education funds. The survey and data acquisition fund can be utilized only once every five years and the fund balance cannot exceed \$50,000.

Wayne Rasche made the following motion.

PLEASE TAKE NOTICE that the Board of Managers of the Heron Lake Watershed District (HLWD) proposes to adopt the following budget for the year 2017 in accordance with Minnesota Statutes 103D.905 Subdivision 3 and Subdivision 8.

| 103D.90 | 5 Subdivision 3 | |
|---------|----------------------------------|------------|
| | BMP Implementation | 97,686.81 |
| | Surface Water Monitoring | 8,892.95 |
| | Impaired Waters and TMDL | 19,682.66 |
| | Regulatory and Permits | 2,389.32 |
| | Public Drainage System Managemer | 3,385.82 |
| | General Operations | 69,597.05 |
| | Education | 48,365.40 |
| | Subtotal | 250,000.00 |
| 103D.90 | 5 Subdivision 8 | |
| | Survey and Data Acquisition Fund | 50,000.00 |
| | | |
| | Total | 300,000.00 |

A hearing on the foregoing shall be held by the board of managers on the 23rd day of August, 2016 at 8:00 p.m. at the Heron Lake Community Center located at 312 10th Street in the City of Heron Lake, Minnesota.

Harvey Kruger seconded this. Motion carried unanimously.

8. Nobles Soil and Water Conservation District (SWCD) Funding Request

Discussion was held regarding the funding request for the Environmental Fair. Okabena-Ocheda Watershed District contributed \$100. Kanaranzi-Little Rock Watershed District is providing transportation for the schools in their district. Discussion was held regarding their funding need compared to contributions. Harvey Kruger made a motion to commit \$250 to the Environmental Fair. Jim Buschena seconded this. Motion carried unanimously.

9. Pickup Bids

No bids were received for the pickup. The advertisement will again be placed in the *Tri County News* and *Daily Globe*.

10. Reports

District Administrator

Jan Voit reported on the 2017 proposed budget, Jackson County Judicial Ditch (JD) #19, Project 6, Board of Water and Soil Resources (BWSR) Listening/Discussion Session, Swessinger Tract, Clean Water Fund Request for Proposals, final and semi-annual reports, HACH meter and probes, financial information, website, Water Management Partners Workshop, Jackson County JD #30, Ag Awareness Event, Regional Buffer Workshops, clothing, and the August meeting date.

Wayne Rasche gave an update on the water quality workshop that was held in Clear Lake, Iowa on July 14, 2016. Discussion was held regarding possible new laws, bioreactors, enforcement, nitrate levels, and the timeframe for a decision by the Iowa Supreme Court.

Watershed Technician

Catherine Wegehaupt provided information on the streambank stabilization projects and spot spraying done in partnership with the Minnesota Conservation Corps, Kolander project, and reports.

Watershed Coordinator

Erin Nordquist gave an update on the story maps project, stressor ID sampling, Jackson County feedlot inspections, and secchi tube surveys on Jack Creek and Lime Creek.

Catherine Wegehaupt gave a PowerPoint presentation summarizing the 2015 water quality results. Discussion was held regarding rainfall effects on the data collected. Flow weighted mean concentrations are used to take those into account.

Discussion was held regarding the nitrate levels on Jack Creek and Okabena Creek. The City of Worthington is not a contributing factor to the higher levels on Okabena Creek. Some possible reasons may be excessive rainfall, nitrates in the soil, or more tile installed in that subwatershed. Okabena Creek is much straighter than Jack Creek, which could also be a factor.

11. Adjournment

The meeting adjourned at 9:24 p.m.

Harvey Kruger Secretary

Worthington Public Arts Commission Meeting Thursday August 18, 2016 5:30 p.m. City Hall Council Chambers

Members present: Kathy Craun, Gail Holinka, Brenda Hurlbut, Diane Graber, Tammy Makram, Stacie Nagel

Meeting was called to order at City Hall at 5:30pm.

August minutes were approved by Kathy Craun/Diane Graber.

Discussed the dedication for the Crailsheim sculpture - good turnout, around 300. Kathy would like to send out the survey that was created. Kathy will also work on the final report with Steve, with possibly help from Gail. The report is due in 2 months.

Diane gave kudos to all and said the first big project was done right! A big thank you to Brenda for taking pictures, which Gail will share. There were financial donations by the Optimists club (\$100) and Ann Foley. Kathy donated supplies, but will be compensated after Diane speaks with Steve. The entire group will come up with a list of thank yous to send.

Status updates on the Globe sculpture - Brady is willing to start anytime. We do need an updated budget, as there have been landscaping and other minor changes. Possibly donors could be the Globe and BioVerse.

Amelia Earhart -

Ken and Zuby researched information on sculptures in Slayton. The artist is out of Sioux Falls and is reasonable on price. The committee will continue to research the art side of Amelia and not just her legacy.

Long range plans, hopes and dreams -

Past projects - mural at the fire station and the mural at CAL.

Current projects - event center, Crailsheim bridge, globe

Future hopes - Forecast Public Art had a checklist of what needs to be done for a project. Kathy will check that out and show us an example.

Community improvement -

Harmony Park - numerous ideas of where it could go. Brenda has met with Todd and John Loy is also on the committee. Diane will talk to Steve regarding if this is something the Park Installation committee or the Arts Council committee needs to proceed with.

Next meeting scheduled for September 22nd at 5:30pm at Gail Holinka's house

Meeting was adjourned by Kathy Craun/Brenda Hurlbut

CITY OF WORTHINGTON, MINNESOTA

ADMINISTRATIVE SERVICES MEMO

DATE: SEPTEMBER 26, 2016

TO: HONORABLE MAYOR AND CITY COUNCIL

SUBJECT: ITEMS REQUIRING CITY COUNCIL ACTION OR REVIEW

CASE ITEMS

1. <u>CENTER FOR ACTIVE LIVING COMMITTEE AMENDED OPERATING</u> GUIDELINES

The Center for Active Living (CAL) Committee reviewed the Operating Guidelines that were established when the facility was first constructed. The Committee has recommended revising two sections of the Operating Guidelines, highlighted in yellow in *Exhibit 1*.

The Term of Office section is amended to change the City Council appointed member from non-voting to a voting member.

The Attendance section is amended to allow replacement of board members due to absences.

Staff recommends Council approve the amended Operating Guidelines for the Center for Active Living Committee.

2. STRONG SCHOOLS, STRONG COMMUNITIES COMMITTEE PRESENTATION

Representatives of the Strong Schools, Strong Communities Committee will give a presentation to the Council seeking their support of the Worthington School Bond Referendum

Operating Guidelines City of Worthington Center for Active Living Committee

ARTICLE I GENERAL

Section 1. Name

The Center for Active Living Committee of the City of Worthington is hereby established.

Section 2. Purpose

The Committee shall:

Make recommendations to the City Council as to the operating, equipping, and managing of the Center for Active Living located at 211 11th Street, Worthington, Minnesota.

Work with the Center for Active Living Coordinator to develop, establish, and operate programs of interest and benefit to the senior citizens of Worthington.

Work with the Center for Active Living Coordinator to develop, establish, and operate multigenerational programs of interest and benefit to the citizens of Worthington.

Explore and make recommendations to the City Council as to whether or not the Center for Active Living could be established as a separate 501(c) organization if funding were to continue through a contractual relationship with the City of Worthington.

ARTICLE II COMMITTEE MEMBERSHIP

Section 1. Committee

The Committee shall be composed of nine at large members, all of whom shall be citizens of Worthington, to be appointed by the City Council, upon recommendations from the Nominating Committee of the City. In addition, one member of the City Council shall be appointed as liaison.

Section 2. Term of Office

The terms of the initial at large members shall be staggered with three members appointed for one-year terms; three members appointed for two-year terms; and three members appointed for three-year terms. Thereafter, all terms shall be for a period of 3 years. A member is eligible to serve two consecutive terms with a minimum of one year absence before they would be eligible for an additional term. The City Council member shall be appointed annually by the City Council and will have voting rights on the committee. All terms will begin on January 1st and end on December 31st.

Section 3. Officers

The Committee shall elect a Chair, Vice Chair and Secretary annually at the first meeting of the year. The three officers will also serve as an Executive Committee when appropriate.

Section 4. Monthly Meetings

The Committee shall hold a regularly scheduled monthly meeting upon such dates and times as the Committee may designate.

Public notice will be provided consistent with Minnesota statutes.

Section 5. Special Meetings

Special meetings of the Committee may be held upon call of the Chair at such times and places as s/he may designate. Special meetings may also be held upon the call of no fewer than three members of the Committee.

Section 6. Quorum

A simple majority of the Committee shall constitute a quorum to transact business and a majority of those present may transact the business of the organization.

Section 7. Attendance

If a member has 2 consecutive unexcused, or has 4 or more excused absences from regular meetings, this may be cause for replacement on the committee.

ARTICLE III AMENDMENTS

These Operating Guidelines may be amended by the Committee with the approval of the City Council.

ARTICLE IV GIFTS

The City of Worthington will accept gifts to be used for the Center for Active Living.

ARTICLE V PARLIAMENTARY PROCEDURE

Section 1. Parliamentary Authority

| Proceedings of the meetings of the Committee shall be governed by and conducted according to | o the |

PUBLIC WORKS MEMO

DATE: SEPTEMBER 21, 2016

TO: HONORABLE MAYOR AND CITY COUNCIL

SUBJECT: ITEM REQUIRING CITY COUNCIL ACTION OR REVIEW

CASE ITEM

1. RESOLUTION TO ACCEPT DONATION

Earlier this summer Bedford Industries approached the City of Worthington offering a cash donation of \$1,000.00 to be used towards the expansion of the Olson Park Disc golf course. The expansion of the course from 9 holes to 18 holes is now nearly completed. The resolution accepting the donation is included as *Exhibit 1*. The donation meets all the requirements as set forth in the Park Donation policy adopted by City Council. The Park and Recreation Advisory Board recommends the City Council accept the donation.

Council action is requested to adopt the resolution accepting the donation, and authorize the Mayor and City Clerk to sign any necessary agreements.

| RESOI | LUTION | NO. | |
|--------------|--------|-----|--|
| | | | |

A RESOLUTION ACCEPTING A DONATION OF PERSONAL PROPERTY

WHEREAS, the City of Worthington has been notified that *Bedford Industries*, hereinafter "Donor" desires to donate personal property to the City; and

WHEREAS, Donor has placed the following restrictions upon gift: The gift will be used to defer some of the cost to expand the Olson Park disc golf course; and

WHEREAS, Minn. Stat. 465.03 requires that acceptance of any donation be approved by the City Council by a two-thirds majority vote;

NOW, THEREFORE, be it RESOLVED:

The City of Worthington does hereby accept the donation referenced above with any and all conditions, if any, as specified by the donor.

Approved this _____ day of _____, 20___, by a two thirds majority vote of the

That the Mayor and Clerk are authorized to sign said agreement on behalf of the City of Worthington.

ENGINEERING MEMO

DATE: SEPTEMBER 22, 2016

TO: HONORABLE MAYOR AND COUNCIL

SUBJECT: ITEMS REQUIRING COUNCIL ACTION OR REVIEW

CASE ITEMS

1. CONSULTANT FOR McMILLAN STREET RECONSTRUCTION AND RYAN'S ROAD RESURFACING PROJECTS

At its August 8, 2016 meeting Council authorized the solicitation of proposals from three to four consulting firms to provide the professional services needed to develop plans for the McMillan Street reconstruction and Ryan's Road resurfacing projects. Pursuant to that authorization a Request for Proposals was sent to the firms of SEH, Inc., Bolton & Menk, Inc., Banner Associates, Inc., and SRF Consulting Group, Inc. Proposals were submitted by all four firms.

The firm's successful experience in retrofitting existing corridors with bicycle and pedestrian infrastructure, and its ability to implement a beneficial public involvement process were identified as the key qualification criteria to be used in the selection of a consultant for the project. Two members of the Engineering Department and the Director of Community/Economic Development ranked the firms based on this criteria. The firm of SEH did rank highest using this criteria. SEH also proposed the lowest fees of the four firms, however, fees were not considered in the qualification ranking.

The total not to exceed fees proposed by SEH is \$97,600. These fees do not include costs for other services such as geotechnical investigation if needed. The fees are based on a single construction contract for both McMillan Street and Ryan's Road, and do not include construction phase services. If phasing the projects over two seasons and/or construction phase services are needed, additional fees would be negotiated. It is anticipated that, at a minimum, construction staking services will be desired. The need for additional construction phase services will depend on the scope of the project and availability of staff resources.

The McMillan Street and Ryan's Road projects are eligible for Municipal State Aid Street (MSAS) funding. Certain storm water improvement costs and other costs may not be eligible for 100% funding. The 2017 Storm Water Utility budget includes funding a portion of storm water related costs. The design fees are eligible for MSAS funding proportional to eligible construction costs. Design fees will be temporarily financed from Construction Fund (401) reserves until MSAS funding is received and any applicable utility funds are transferred.

Engineering Memo - September 22, 2016 Page 2

Staff recommends that Council accept the proposal from the firm of SEH included as Exhibit 1 and authorize the Mayor to execute an agreement approved by the City Attorney.

2. MINNESOTA DEPARTMENT OF TRANSPORTATION GRANT AGREEMENT FOR TAXIWAY C MAINTENANCE PROJECT

On May 9, 2016 Council approved plans and authorized advertisement for bids for the for crack/joint repair and seal coating Taxiway C at the Municipal Airport in anticipation of potential Federal Aviation Administration (FAA) funding. At its June 13, 2016 meeting, Council awarded a contract for the project to Fahrner Asphalt Sealing subject to receipt of a FAA grant. Council did authorize execution of an FAA grant agreement for 90% of project costs of the Taxiway C project costs at its August 22, 2016 meeting. The potential for additional funding from the Minnesota Department of Transportation (MnDOT) for 5% of the project costs was also presented at the time of these Council approvals.

As is standard procedure, MnDOT has, subsequent to execution of the FAA agreement, provided the grant agreement between the City and MnDOT. The agreement establishes that MnDOT will disburse the federal funds to the City and provide additional funding for 5% of project costs. Estimated project and budgeted funding is as follows:

| | Current Estimate | 2016 Budget |
|-------------------------|------------------|-------------|
| Total Project Cost: | \$129,700 | \$188,521 |
| Total FAA Share (90%): | \$116,730 | \$169,669 |
| Total State Share (5%): | \$6,485 | - |
| Total Local Share (5%): | \$6,485 | \$18,852 |

Staff recommends that Council authorize execution of the MnDOT grant agreement in Exhibit 2 by passing the resolution also included in Exhibit 2.

September 19, 2016

Dwayne Haffield City of Worthington PO Box 279 Worthington, MN 56187 RE: Proposal for Professional Services McMillan Street and Ryan's Road Reconstruction SEH No. P-WORTC 138374

Dear Mr. Haffield:

The City of Worthington is showing a strong commitment to meeting the unique needs of your community with your reconstruction and resurfacing projects on McMillan Street and Ryan's Road. Short Elliott Hendrickson Inc. (SEH®) is invested in this project as an effort that fits into the improvements outlined for the City in your "Active Living" Plan and stands to provide long-term benefits to the City and your citizens.

This calls for a consultant that can anticipate and meet each phase of the scope of work while handling unique issues in terms of public involvement and the requirements for Municipal State-Aid funded projects. The City needs a partner that can address the needs of businesses and the public in a busy corridor while also providing the technical expertise to keep the project on track and on schedule.

We share the City's excitement at the opportunity to implement a Complete Streets Policy. SEH completed a preliminary pedestrian and bicycle study for this corridor, providing our team with an unmatched familiarity with the project area and the issues that might arise. With that in mind, SEH has put together a team with the experience and qualifications to handle each unique aspect of this project, from each phase of the scope of work to the unique issues with public involvement to the applications and requirements for this State-Aid project.

STATEMENT OF QUALIFICATIONS

The City of Worthington needs to team with an engineering consulting firm with a unique set of qualifications and experience to successfully achieve the desired goal of converting these corridors into "complete streets." The SEH team assembled for this project is best suited to meet your objectives.

SEH will maintain transparent and accountable communication and remain sensitive to stakeholder needs – with the ultimate goal of keeping the project on schedule and within budget. This letter outlines our proposal to continue providing outstanding service to the City on this project:

- Project Understanding
- Scope of Work
- Proposed Schedule
- Project Team
- Compensation
- Relevant Project Experience

PROJECT UNDERSTANDING

It is our understanding the City of Worthington intends to make improvements on two of their Municipal State Aid streets that are located in the Oxford – 59 – I90 Corridor. These improvements include a complete reconstruction of McMillan Street between Oxford Street and Ryan's Road and a mill and overlay on Ryan's Road between McMillan Street and Ray Drive. SEH has developed our approach and understanding to this project based on the driving force behind these improvements: the need to develop additional infrastructure to accommodate both pedestrian and bicycle facilities to the extent possible in accordance with the City's adopted "Complete Streets" policy.

The City of Worthington is seeking professional engineering services for preliminary and final design for the above mentioned project. Preliminary design will include the following:

- Collection of corridor use information to project future vehicle traffic conditions
- Traffic signal evaluation
- Evaluation of the storm sewer collection system
- Evaluation of potential pedestrian and bicycle use
- Determination of roadway geometry
- Public involvement to review alternatives and evaluate potential roadway, walk and/or trail
 configurations to serve pedestrian and bicycle traffic

Final design includes the following tasks:

- Preparing bidding documents for the proposed improvements
- Advertising the project to prospective bidders
- Awarding the project to the selected contractor

SEH will prepare all final plans and specifications to meet all Minnesota State Aid and City of Worthington design requirements.

PROJECT APPROACH

The primary goal of this project is to safely and successfully implement pedestrian and/or bicycle facilities to the Ryan's Road/McMillan Street corridor. SEH is proposing a project team that has successfully worked together in the past and brings a history of relevant project experience and construction management skills along with very specific knowledge of the project.

In 2015, SEH completed a pedestrian and trail assessment for the Oxford – 59 – I90 Corridor. This assessment included the Ryan's Road/McMillan Street corridors. In the 2015 project, SEH evaluated the potential for adding pedestrian and bicycle accommodations while working within the constraints of the roadway width, available right-of-way, and stationary obstructions within the right-of-way.

SEH is very familiar with the signal system in these corridors; in 1999, our team completed the design and provided construction administration services for the existing traffic signal at McMillan Street and Oxford Street using our current traffic staff. We believe that our familiarity with the project gained through our past experience working in this area will be a significant benefit to the City of Worthington as we provide design services for this project. Al Murra will play a key role as project manager in facilitating communication between design staff, City representatives and project stakeholders.

Our firm believes that communication is critical to cost-effective delivery of any public infrastructure project. Our approach involves proactively gathering input from stakeholders, addressing concerns and bringing the appropriate parties together for collaboration to achieve the best possible outcome. Through the pedestrian & trail assessment project in 2015, SEH has already met with some of the key stakeholders directly affected within the project area. The information gathered through that process will be invaluable as our team addresses property owner concerns through the design process.

Our knowledge of the project will assist us in working through the design issues that may arise and will provide added value to our services for the City of Worthington. Our attention to detail relative to best

construction practices, in tandem with strong teamwork and problem solving skills, make SEH an excellent choice for the design services of this project.

SCOPE OF WORK

Topographic and Right-of-Way Survey

We understand that a preliminary topographic survey of the project was completed by Larye Mick of Midwest Engineering in December of 2015. We understand that this survey is believed to be sufficient to begin preliminary design, but will need to be supplemented to gather information for work that may be required beyond the limits of the right-of-way (ROW) and to update any utility information necessary for the development of the final project plan. Further, it is expected that additional land surveying services will be required to provide confirmation and establishment of ROW lines due to the limited ROW available for the construction of the sidewalk and bicycle facilities.

For the additional topographic survey needs, SEH proposes to subcontract with Midwest Engineering. Our firm has a long history and excellent working relationship working with Larye Mick. Since Midwest Engineering provided the preliminary survey for the project and has familiarity and experience working in the project area, SEH believes having Midwest Engineering included in our project team will be the most cost-effective and seamless solution for the City of Worthington. Any additional ROW determination services would be provided by SEH's professional land surveying staff. The scope of work for topographic and ROW survey includes:

- Collect additional survey information as needed to provide necessary topographic information beyond the preliminary survey
- Establish all required ROW lines within the project area
- Additional Survey data collected will be completed on the horizontal and vertical datums used by the City – Nobles County Coordinates, NAD 1983 HARN Adjusted and NAVD 88.

Geotechnical Services

SEH understands the need for a geotechnical investigation to determine the existing soil conditions and design the new pavement sections to meet the State Aid Design Standards. SEH is proposing that these geotechnical services for the project be performed by an independent third-party consultant and directly contracted through and paid for by the City. The scope of SEH's work for Geotechnical Services on the project is focused on assisting the City in developing a scope of work for the geotechnical services including the number, location and depth of soil borings. If the City wishes to instead have SEH include geotechnical engineering services in this proposal, those services can be added through a contract amendment.

Preliminary Design

Traffic Data and Analysis

Traffic forecasting work previously completed by SEH will be reviewed and updated as necessary to assist with the refinement of the previous concept layouts; during this step, our team will also identify potential design enhancements such as crossing treatments, pavement markings and potentially, hybrid or new concepts. The team will obtain existing traffic data, including parking demands and routes for non-motorized users and peak period turning movement counts at the intersection of McMillan Street and Oxford Street.

The turning movement volume data will be used to assess the operation of a potential flashing yellow arrow and proposed geometrics at the traffic signal at McMillan Street and Oxford Street. Further, this data will also be used for preparation of the Signal Justification Letter (SJL) required for signal modifications at the intersection (see Task - Traffic Signal Design Services).

Concept Alternatives

The traffic data obtained will be used in conjunction with the topographic and survey data to assist with the refinement and development of concept alternatives. During the kick-off meeting with the City, team members will listen to City goals and preferences regarding improvements to McMillan Street and Ryan's Road. Based on data obtained and City direction, the team will work collaboratively to identify and test a

range of concept alternatives which transform the area along the two corridors into a more walkable and bikeable place, providing transportation alternatives to Worthington citizens and visitors accessing the commercial area. Concept alternatives will include on-street or off-street bicycle facilities and continuous pedestrian space.

We will communicate with private utility companies to determine right-of-way needs and potential relocations.

Our team's experience with both retrofit and new construction projects which incorporate complete streets principles along state aid roadways positions us to identify feasible concept alternatives and improvements that:

- Meet state aid requirements
- Meet the goals of the City's Active Living Plan
- Provide acceptable motor vehicle capacity
- Improve safety and access for bicyclists and pedestrians
- Repurpose existing right-of-way as appropriate
- Minimize the need for curb and gutter relocation and ROW acquisition

We will develop up to three concepts in cross section and plan view. We will develop a screening matrix to allow stakeholders to readily compare the impacts and outcomes of each concept alternative for selection of a preferred alternative.

Traffic Signal Design Services

As part of the preliminary design project scope, SEH will perform a detailed field review of the intersection and signal system for use in preparation of signal revision alternatives and preliminary construction costs for each signal alternative. SEH will review the signal system for potential upgrading of left turn operation to flashing yellow arrow operation using peak hour data collected as part of the existing conditions work.

SEH recommends installing flashing yellow arrows if at all possible on Oxford Street for better operational flexibility. This improvement could be costly depending on what upgrades may be needed to the traffic signal controller and cabinet. As part of the initial review, SEH will determine what upgrades to the signal and controller cabinet would be required to allow for this operation. With separate left turn lanes already provided on McMillan Street, there is potential to add dedicated left turn phasing as well, and we will review this option for City consideration.

SEH will also review the signal system for pedestrian upgrades. At a minimum, the pedestrian curb ramps will need to be upgraded to meet current ADA standards, but we will also review the feasibility of including Accessible Pedestrian Signals (APS) (audible) push button installations on the existing signal. If it is determined that installation of APS would become too costly, we would recommend, at a minimum, having the conduits and cables installed during this project to save money on any sidewalk replacement necessary if APS is installed with a future project. Furthermore, we recommend installing a segment of sidewalk to close the gap in pedestrian access at the southeast corner of Oxford Street and McMillan Street so that pedestrians along the east side of McMillan Street can be connected into the signal system and push button operation.

A comprehensive review of the signal system will be performed by SEH in order to provide the City with other recommendations for improvements to bring it up to current design standards and enhance the lifespan of the signal system. This review process will include the following:

- Provide detailed review of the traffic signal controller and cabinet to confirm the capability of this
 equipment to accommodate revisions to the signal system
- Summarize our findings in a brief memo to the City for City staff review and consideration.
- Provide availability to discuss these recommendations
- Work with the City to determine a final scope of work for modifications to the signal system

SEH will be available to discuss these recommendations and will work with the City to determine a final scope of work for modifications to the signal system and prepare a Signal Justification Letter, required for signal modifications (Final Design).

Preliminary Design Scope Summary

To summarize, the scope of work for the Preliminary Design will consist of the following:

- Collection of corridor use information, including parking demands and pedestrian and bicycle use patterns, routes and destinations.
- Collection of 2-hour AM and PM peak period turning movement counts using video cameras at the intersection of McMillan Street and Oxford Street for use in intersection analysis and SJL preparation needed for Final Design.
- Projection of future vehicular traffic.
- Meetings and communication with private utility companies to determine right-of-way needs and potential relocations.
- Preparation of up to three viable roadway/bicycle/pedestrian concept alternatives in cross section and plan view, including a preferred alternative, for review by stakeholders and selection by the City.
- Determination of necessary construction phasing, scheduling, storm sewer alterations, utility relocations, signal improvements and an opinion of probable cost shall be included for each alternative.
- Determination of the feasibility and costs of modifying existing traffic signal at McMillan Street and Oxford Street to provide flashing yellow left turn arrows.
- Determination of the feasibility of installing pedestrian amenities and/or landscaping features.
- Attendance at monthly meetings with City staff to review design and aesthetic concepts.

Public Involvement

For this project, we visualize a very thorough public involvement process. We plan on having the following items in our scope of work:

- Send letter correspondence to all property/business owners and residents adjacent to the project area, informing them of the project
- Hold preliminary meetings with key property/business owners and residents to gather information about their needs throughout the construction project
- Send letter correspondence to Worthington Active Living Plan Steering Committee informing them of the project
- Hold preliminary meeting with Worthington Active Living Plan Steering Committee to get key input and direction regarding their vision for the project
- Advertise and hold a preliminary open house to gather input on the project from the general public
- Prepare several alternatives and a recommended alternative, as described in the preliminary design process, to be presented to the City Council for approval and authorization to proceed with the selected alternative
- Hold follow-up meetings with all stakeholders, the Active Living Plan Steering Committee and the general public to inform them of plans for proceeding with the final design of the project

Final Design

Once the overall design scope for all improvements has been approved, SEH will perform detailed design of all of the roadway, pedestrian and bicycle improvements and recommended modifications to the signal system at the McMillan Street and Oxford Street intersection. The scope of work for the Final Design will consist of the following components:

Construction Documents - Plans and Specifications

- Prepare a complete set of plans and specifications for street, corridor and signal improvements for the proposed alternative
- Prepare plans to meet MnDOT Municipal State Aid requirements

- Base specifications on MnDOT Standard Specifications for Construction, including the use of Division I as general conditions
- Incorporate any of the City's applicable special provisions or standard details into the plans and specifications
- Include the preparation of a Storm Water Pollution Prevention Plan (SWPPP) in plans, in accordance with the requirements of Minnesota's 2013 NPDES Stormwater General Permit and following the MPCA's SWPPP Checklist (form wq-strm2-47)
- Prepare plans in AutoDesk Civil 3D format using Nobles County Coordinates, NAD 1983 HARN Adjusted and NAVD 88
- Submit three 11"x17" paper copies of the final plan set, a 11"x17" PDF copy and electronic copies of design files in Autodesk Civil 3D .dwg format with all referenced layers and surface files

Plan Review Submittals

SEH anticipates the following plan review submittals for this project:

- 70% City design review plans will be submitted to the City of Worthington for review at approximately 70% design with ongoing communication during plan development to minimize the need for earlier reviews.
- 95% City design review plans will be submitted to the City of Worthington for review when plans have reached approximately 95% for final input prior to State Aid Review submittal.
- State-Aid Plan Submittal plans will be submitted to MnDOT for State Aid plan review after final City review. SEH will complete the MnDOT State-Aid Plan Review checklist prior to submittal.

Construction Cost Estimate

- An itemized construction cost estimate satisfying State-Aid requirements will be prepared and submitted at the 70% City design review, 95% City design review, State-Aid plan submittal, and with the project Bidding Documents at 100%.
- Estimate shall be prepared and submitted as a Microsoft Excel (.xlsx) file.

Permitting and Agency Approval

SEH will prepare supporting documents, applications, submittals, exhibits, plans and specifications necessary to obtain the following agency approvals for the McMillan Street/Ryan's Road Improvements project:

- Okabena-Ocheda Watershed District
- MnDOT Right-of-Way Permit (if needed)
- MnDOT State-Aid approval through the City's State-Aid Submittal.
- Prepare and submit Minnesota NPDES Construction Storm Water Permit Application

Bidding Phase

SEH will assist the City of Worthington during the bidding phase with the following tasks:

- Upload bidding documents to Quest CDN with links to SEH and City of Worthington websites for advertisement for bids
- Assist the City with questions from potential bidders related to the project
- Prepare and issue any necessary addenda for the project
- Prepare a bid abstract, review the bidder's qualifications and prepare a recommendation of award

Construction Phase

We understand that the scope of construction phase services has not yet been defined by the City due to the uncertainty of available City resources. Should the need arise for these services, SEH is well positioned to serve these needs. SEH has a number of experienced Resident Project Representatives (RPRs) with MnDOT certifications required for observation of State-Aid projects.

SEH also has a wealth of experience with the contract administration of Municipal State-Aid projects. To provide the most cost-effective services for materials testing during construction, SEH would propose to subcontract with a qualified local engineering testing firm. Similarly, SEH would propose to subcontract with Midwest Engineering to provide construction staking if needed.

PROPOSED SCHEDULE

After careful review of all project components, SEH has developed the following Proposed Schedule for the McMillan Street and Ryan's Road Street Improvements Project:

| Proposed Schedule | | | | | | | |
|-----------------------------------|-----------------------------|--|--|--|--|--|--|
| Council Awards Project to SEH | End of September 2016 | | | | | | |
| Signed Contract Returned | Mid October 2016 | | | | | | |
| Begin Geotechnical Work | Mid October 2016 | | | | | | |
| Begin Preliminary Design Concepts | Mid October 2016 | | | | | | |
| Hold Stakeholder Meetings | Early November 2016 | | | | | | |
| First Public Meeting | Early November 2016 | | | | | | |
| Selection of Alternative | Early January 2017 | | | | | | |
| Second Stakeholder Meetings | Mid-January 2017 | | | | | | |
| 70% Design Submittal | Mid-February 2017 | | | | | | |
| State-Aid Review Submittal | Early March 2017 | | | | | | |
| State-Aid Approval | Mid-April 2017 | | | | | | |
| Advertise for Bids | End of April 2017 | | | | | | |
| Bid Letting/Award | End of May 2017 | | | | | | |
| Construction | Early July 2017 – Fall 2017 | | | | | | |

Note: SEH believes the proposed schedule has approximately two months of built-in flexibility to accommodate for schedule delays and unforeseen circumstances between the start of design and the start of construction.

PROJECT TEAM

SEH has selected a highly skilled project team with the expertise, resources and availability to provide professional engineering services to the City of Worthington for this project. This team has completed work for the City of Worthington in and around the project corridor. Moreover, our team includes some of the same key individuals that were involved with the 2015 Pedestrian and Trail Assessment study which brings an added level of knowledge to the project.

The following section highlights essential staff who will be responsible for working on each area of need your project will require while seamlessly coordinating with you and your project stakeholders. Each individual's role on the project is included as well as an overview of their unique qualifications. These professionals will be dedicated to your project throughout its duration, and they are committed to ensuring that the City and its citizens receive the attention, responsiveness and quality service your construction project deserves.

Resumes of our key team members, including examples of recent and relevant project experience, are available upon request.

Alan V. Murra, PE - Project Manager

Al will serve as the project manager and the primary point of contact for the City of Worthington. He will be responsible for the timely delivery of all project deliverables, budget and schedule oversight and communications. Al will work closely with all project team members to ensure that all aspects of the project are coordinated and completed to meet the project expectations.

Al is a senior project manager with more than 16 years of civil engineering experience. He was also the project manager for the previous Pedestrian and Trail Assessment for the Oxford – 59 – I90 Corridor study. Al is the civil group leader in SEH's Sioux Falls office. His project experience includes managing municipal, county and state projects from concept development through design and construction.

Heather Kienitz, PE - Senior Traffic Engineer

Heather is a senior traffic engineer. She will lead the multimodal design and traffic engineering tasks for this project. These tasks include review and updates of draft layouts and previous forecasting work, assessing parking and multimodal circulation in the area, concept development, alternatives screening, and the preliminary and final design of the selected pedestrian and bicycle facilities. Applying both local and national best practices and

drawing on her experience developing complete streets solutions for retrofit and new construction projects, Heather will work with the project team and the City to determine the appropriate cross section and treatments to serve the non-motorized users in conjunction with auto traffic.

Heather has dedicated herself to developing highly inclusive, context-sensitive solutions for built environments for the past 18 years. She leads multimodal traffic engineering projects for corridor studies, area plans and final designs. She is particularly experienced with the retrofit, reconstruction, or new construction of bicycle and pedestrian facilities. A natural collaborator, Heather believes in working closely with agency and community stakeholders to develop multimodal transportation solutions. Heather's recent, similar project experience includes:

- Broadway Avenue Corridor Study Rochester, Minn
- West Lake Multimodal Transportation Study Minneapolis, Minn.
- Saint Paul Grand Round North Loop Trail St. Paul, Minn.
- Nine Mile Creek Regional Trail Three Rivers Park District (Edina/Richfield/Minnetonka, Minn.)
- Non-Motorized Transportation Pilot Program Bicycle Operations Project Minneapolis, Minn.

Scott LaVoy, PE - Project Engineer

Scott will serve as the project engineer and the lead designer of the project. He will be tasked with producing the preliminary and final designs of the project, attending preliminary design meetings, attending public open house meetings, creating the project plans and specifications, cost estimating, SWPPP design and ensuring compliance with current design standards.

Scott is a project engineer and project manager with more than 10 years of experience in the civil engineering field, working on primarily roadway reconstruction and site design projects for counties, municipalities and private clients. He has extensive knowledge of ADA requirements and has a wide range of experience with the construction of pedestrian facilities. Most notably, he served as the lead designer for Segment 3 (Wheelock Parkway) of the St. Paul Grand Round for the City of St. Paul, which is currently under construction. He has also done recent work within the City of Worthington, including the Buss Field Soccer Improvements project, and the ISD 518 Bus Garage.

Tom Sohrweide, PE – Senior Traffic Engineer

Tom is a senior traffic engineer. For this project, Tom will have an advisory and quality assurance role, lending his technical expertise in the area of traffic operations to the other members of the project team. Having provided project oversight on the 2015 Pedestrian & Trail Assessment of the Oxford -59-190 Corridor for the City of Worthington, he is uniquely qualified to assist in the planning and design of the McMillan Street and Ryan's Road Street

Improvements project.

Tom brings over 40 years of project management experience in the discipline of traffic engineering. He has extensive knowledge in the areas of traffic studies, traffic signal designs, traffic control, traffic signing and pavement marking design, roadway designs and intelligent transportation systems (ITS); among other transportation-specific engineering tasks and responsibilities.

Tom has been the recipient of multiple awards including the 2011 Best New Innovative Product Award, recognized by the National Rural Intelligent Transportation Systems (NRITS) Best of ITS Rural Awards, and the 2015 Transportation Professional of the Year, recognized by the North-Central Section Institute of Transportation Engineers (NCITE).

John Gray, PE - Traffic Signal Design

John will work with the design team to provide traffic signal review along with the preliminary and final design of the proposed traffic signal improvements. John is a senior professional engineer with over 26 years of transportation and traffic-related experience. His responsibilities include planning, design, construction assistance and developing operational concepts of traffic signal systems. This includes permanent, actuated, coordinated,

temporary, and revised systems and flashers; emergency vehicle preemption (EVP); innerconnect facilities; assessment of existing signal systems; and needs studies for signals.

John's expertise also extends to traffic studies, report preparation including intersection analysis and intersection control evaluations (ICEs), as well as providing recommendations for future geometrics and intersection controls. In addition, he brings experience and a strong background in the conceptual design of roadways, sign inventories, traffic control plans for road construction, and signing and pavement marking plans.

Rocky Keehn, PE - Senior Water Resources Engineer

Rocky will provide quality control as needed for any hydrology and hydraulic related design components on the project. Rocky is a senior water resources engineer who has more than 29 years of water resources engineering experience with SEH. He is regularly involved with or performs design development, project review, quality control from concept to final design, plans and specifications, and constructability reviews on projects. He is a certified floodplain

manager and registered engineer in Minnesota.

Alec Boyce – Client Service Manager

Alec is a senior client service advisor with wide-ranging experience working with state and local governments in Minnesota, South Dakota and Iowa. As a client service advisor, Alec will be responsible for ensuring that the City of Worthington receives superior client service in accordance with the negotiated scope of work. He becomes the "Client Advocate" for the client, ensuring that communities receive a successful project from beginning to end. With

excellent public relations skills developed through his many years of experience, Alec will also assist at public open houses and property owner meetings.

Alec has worked with local and state branches of government to make things happen for communities in the areas of community planning and development, housing, transportation and infrastructure projects. He is highly knowledgeable about the funding programs and processes that assist local governments in making visions become reality. Alec also works along the legislative and executive side of state governments to assist clients in attaining success in whatever they choose to make happen. Alec makes it a practice to be familiar with the issues facing the community and how best to address them.

Larve Mick, PE, Midwest Engineering – Topographic Surveyor

Larye Mick is a civil engineer with more than 30 years of experience in municipal engineering design, topographic surveys and construction survey/staking. Larye is a lifelong resident of Worthington who has worked on countless local projects for the City of Worthington and SEH.

RELEVANT EXPERIENCE

SEH's recent and relevant project experience includes a variety of municipal, county, and state roadway construction projects. Our capabilities range from conceptual planning and design to providing construction oversight. Regardless of the project's scope, size or location, we are diligent in our efforts to provide engineering services that ensure the finished project will exceed expectations. The following section provides an overview of some of our recent and similar projects.

Saint Paul Grand Round North Loop Trail – City of Saint Paul

(City Project No. 16-P-1410, SEH Proj # STPAU 132093)

SEH served as the design lead for the Grand Round North Loop Project, completing Landscape Architect HWS Cleveland's vision of a 29-mile continuous transportation corridor around the City of St. Paul. With the south loop already constructed, the project encompasses off-street bicycle and pedestrian trail planning and construction of eight distinct segments for the north loop. SEH's team developed a design manual that identifies trail alignments, cross-sections identity/branding, wayfinding and public art opportunities along the trail. Final design and construction of three of the eight segments, includes a dedicated trail along a portion of Pelham Boulevard, reconstruction of a 1.6 mile segment of Wheelock Parkway (with new sidewalk on both sides of the

parkway and a new bike trail), and a dedicated trail along part of Johnson Parkway. Construction of Wheelock Parkway is currently underway, Pelham Boulevard will be constructed next season. Johnson Parkway is currently being designed. (Construction cost of Wheelock Parkway – approx. \$6.9 Million)

Features:

- Very extensive public engagement with different City Departments and cycling/pedestrian groups
- Wheelock Parkway construction included reconstruction of existing bituminous roadway, retrofitting over 86,000 square feet of new concrete sidewalk on both sides of the parkway and the addition of over 1.6 miles of bituminous bicycle trails, with landscaped kiosk at the Gateway State Trail System node.
- Wheelock Parkway constructed within existing corridor with the goal of minimal disturbance to the thousands of trees in the parkway.
- Pelham Boulevard Improvements will include the addition of a cycle track along the eastern side
 of Pelham Boulevard and will be accomplished be restriping the roadway for a two-lane roadway
 without on-street parking. Cycle track will be buffered by a two-foot striped area with flexible
 delineators.

Broadway Avenue Corridor Study – City of Rochester

SEH provided engineering services for the study, evaluation and alternatives analysis for Broadway Avenue from Civic Center Drive to 37th Avenue NE. The City of Rochester initiated the Broadway Avenue Corridor Study to utilize MnDOT turn back funding both efficiently and effectively. The purpose of the study was to identify future investments for the Broadway corridor to implement complete streets design solutions to enhance the corridor's ability to safely

accommodate all modes of users, support economic vitality, promote public health and provide aesthetic improvements that instill an inviting and attractive presence for local residents, businesses and visitors alike.

The study included evaluation of existing conditions, opportunities and constraints, traffic forecasts, crash history and intersection level of service for alternatives. Results were compiled in a decision matrix that considered project goals and costs to provide the City with a framework to improve and maintain Broadway over the next 50 years.

The future layout provides the City of Rochester with a corridor plan for street design needed in the future for each street segment. Elements of the plan include:

- Road diet
- Four-lane roadway with turn lanes
- Green medians

- Continuous sidewalks
- Shared use paths
- Buffered on-street bike lanes

Separated protected bikeways/cycle tracks

Transit stop bays

TH59 at Ryans Road Improvements – City of Worthington and MnDOT State Aid (State Proj #5304-33, State-Aid Proj #177-118-001, SEH Proj #WORTC0804)

SEH worked with MnDOT and the City of Worthington on a State-Aid improvement project necessary to address traffic issues in the TH59 and Ryans Road area, particularly on the west side of TH59. The project included a traffic study in this area to develop concepts to improve the traffic flows to and from the existing and future businesses that resulted in the removal of the existing frontage road that was immediately west of TH59.

SEH worked closely with the DOT, City of Worthington, an advisory committee and the affected businesses through this process to

develop concepts that met all of the stakeholders needs. The project design included removing the existing TH59 west frontage road, design of a new backage road (Ray Drive), storm drainage improvements, construction phasing, traffic signal system design, signing & striping and restoration. (Construction cost approx. \$900,000)

Features:

- Detailed traffic study/planning
- New backage road (Ray Drive) to replace existing Hwy-59 frontage road
- Coordination with impacted business owners
- New driveway access along Ray Drive for impacted businesses
- Storm drainage collection system design
- Traffic signal design

Barck Avenue (CSAH 30) Improvements – Rocky County, City of Luverne and MnDOT State Aid (State-Aid Proj #067-630-002, County Proj #904, SEH Proj #ROCCO127010)

SEH worked with MnDOT, Rock County and the City of Luverne on the Barck Avenue (CSAH 30) reconstruction project between Hwy-75 and Blue Mound Avenue. The 0.5-mile long project in this residential neighborhood included a full street width mill and bituminous overlay, drainage improvements, partial concrete curb and gutter replacement (approx. 55%), new concrete driveway aprons, reconstruction of existing concrete sidewalk and upgraded pedestrian curb ramps to meet ADA requirements. The project included preliminary engineering, final design and construction bidding documents for the project. The County managed the construction administration.

Features:

- Partial concrete curb and gutter replacement
- New concrete driveway aprons
- Reconstruct existing concrete sidewalk
- Reconstruct existing concrete pedestrian ramps to meet ADA requirements
- Signing and striping
- Landscape restoration

2012 Street and Utility Improvements - City of New Prague

(Municipal State-Aid Proj SP 237-102-001 / 237-104-002, SEH Proj #NEWPR 117188)

SEH provided planning, design and construction engineering services for nearly 1.5 miles of street and utility reconstruction. For the project, 0.75 miles were State-Aid (2nd Street NW/NE and 1st Avenue NW). The City received an advance of State-Aid funds to fund the project. The project also included funding from assessments and utility funds. These efforts required coordination with the Union Pacific Railroad for utility and roadway crossings. (Construction cost approx. \$2.3 Million).

Features:

- 0.75 mi of urban State Aid street and utility reconstruction
- Residential neighborhood and Hospital adjacent to project
- Over 1 mile of sidewalks constructed adjacent to MSA street
- RR crossing
- Stream crossing requiring replacement of box culvert
- Municipal State Aid MnDOT District 7

West TH 19 Trail Improvements – City of New Prague

(Municipal State-Aid Proj SP 237-090-001, SEH Proj #NEWPR 117217)

SEH assisted with preliminary designs and grant application services, along with final design and construction engineering services. The trail was located in an area of mixed residential and commercial uses. This project required close coordination with MnDOT District 7 staff. Curbing was added along the north side of the road to accommodate the trail and to meet trail design standards. (Construction cost approx. \$215,000)

Features:

- 0.5-mile pedestrian/bike trail constructed along Trunk Highway 19
- Funding: Federal ATP Grant Enhancement
- Lighting along roadway
- Cooperative Agreement/Federal Aid MnDOT District 7

CSAH 3/Fifth Street Area Improvement - City of Montgomery/Le Sueur County

(County State-Aid Proj SP 040-603-025, SEH Proj #LESUR 125487)

SEH provided planning, design and construction engineering services for this joint reconstruction project between Le Sueur County and the City of Montgomery. The project included 1 mile of urban county road and 0.6 miles of local urban streets. SEH assisted the City in applying for and receiving a Local Road Improvement Program (LRIP) grant, which funded a portion of the local street project. The project also included full utility reconstruction throughout. The project also included the design and construction of over 1.5 miles of sidewalk along the County Road segment of the project. SEH managed the extensive public involvement process

which included neighborhood meetings and open houses, as well as the required public hearings per Mn Stat. 429. (Construction cost approx. \$5 Million)

Features:

• 1 mile of CSAH and utility reconstruction in a residential neighborhood.

- CSAH portion was constructed with concrete pavement.
- Sidewalk constructed on both sides of the county road.
- More than 75 mature boulevard trees removed and replaced.
- Extensive public involvement.
- Extensive coordination with adjacent Seneca corn and peas processing plant.
- Joint County-City project
- County State Aid Project MnDOT District 7

COMPENSATION

SEH proposes to be compensated for the above Scope of Work on an hourly basis. Compensation will be based on the hourly cost of personnel plus reimbursable expenses. SEH will provide the Scope of Work, as outlined above, for a fee not to exceed \$97,600.00 including reimbursable expenses. The City of Worthington shall be responsible for all agency permitting and review fees. Additional services required beyond the tasks and estimated hours as described can be negotiated and/or provided as extra work on an hourly basis. The City of Worthington will be invoiced for actual labor and reimbursable expenses incurred by SEH to complete the work. The person/hour task budget for the anticipated work is attached.

Fees for the construction phase are not included in this proposal. Geotechnical testing services and construction staking prices would be contracted either through SEH or directly with the City for lump sum prices. SEH would propose utilizing a billing structure similar to the following for construction administration and construction observation services:

| Title | Billing Rate (Range) | Mileage Fee | Vehicle Fee |
|-----------------|----------------------|--------------------|-------------|
| Project Manager | \$110.00-\$147.00/hr | \$65.00/Round Trip | N/A |
| Project RPR | \$81.00-\$115.00/hr | \$65.00/Round Trip | \$13.00/Day |

^{*}Mileage based on current IRS rate of \$0.54/mile and calculated from Sioux Falls to Worthington round trip.

SUMMARY

We appreciate the opportunity to serve as your partner in this effort, and welcome any questions you may have regarding our proposal or qualifications. Feel free to contact me at 605.330.7015 or amurra@sehinc.com. SEH is poised and ready to continue our work on this project and see it brought to a successfully constructed project that the City, adjacent property owners and citizens of Worthington can be proud of for years to come.

Sincerely,

SHORT ELLIOTT HENDRICKSON INC.

alan V. Mura

Alan V. Murra, PE Project Manager

Rev. #1, 7/06 State Project No. A5301-80

GRANT AGREEMENT FOR AIRPORT IMPROVEMENT **EXCLUDING LAND ACQUISITION**

This Agreement is by and between the State of Minnesota acting through its Commissioner of Transportation ("State"), and the City of Worthington ("Recipient").

WHEREAS, the Recipient desires the financial assistance of the State for an airport improvement project ("Project") as described in Article 2 below: and

WHEREAS, the State is authorized by Minnesota Statutes Sections 360.015 (subdivisions 13 & 14) and 360.305 to provide financial assistance to eligible airport sponsors for the acquisition, construction, improvement, or maintenance of airports and other air navigation facilities; and

WHEREAS, the Recipient has provided the State with the plans, specifications, and a detailed description of the airport improvement Project.

NOW, THEREFORE, it is agreed as follows:

- This Agreement is effective upon execution by the Recipient and the State, and will remain in effect until 12/31/2019.
- The following table provides a description of the Project and shows a cost participation breakdown for each item of work:

| Item Description | Federal Share | State Share | Local Share |
|---|---------------|-------------|-------------|
| Rehab (Route & Seal Cracks & Seal Coat) Taxiway "C" | 90% | 5% | 5% |

- The Project costs will not exceed \$129,700.00. The proportionate shares of the Project costs are: Federal: Committed \$116,730.00, Multi-Year Amount: \$0.00; State: \$6,485.00, and Recipient: \$6,485.00. This project is not estimated to be completed this fiscal year and the federal multiyear amount is an estimate only. These additional funds are not committed by the state and are only available after being made so by the U.S. government. Federal funds for the Project will be received and disbursed by the State. In the event federal reimbursement becomes available or is increased for this Project, the State will be entitled to recover from such federal funds an amount not to exceed the state funds advanced for this Project. No funds are committed under this Agreement until they are encumbered by the State. No more than 95% of the amount due under this Agreement will be paid by the State until the State determines that the Recipient has complied with all terms of this Agreement, and furnished all necessary records.
- The Recipient will designate a registered engineer (the "Project Engineer") to oversee the Project work. If, with the State's approval, the Recipient elects not to have such services performed by a registered engineer, then the Recipient will designate another responsible person to oversee such work, and any references herein to the "Project Engineer" will apply to such responsible person.
- The Recipient will complete the Project in accordance with the plans, specifications, and detailed description of the Project, which are on file with the State's Office of Aeronautics and are incorporated into this Agreement by reference. Any changes in the plans or specifications of the Project after the date of this Agreement will be valid only if made by written change order signed by the Recipient, the Project Engineer, and the contractor. Change orders must be submitted to the State. Subject to the availability of funds the State may prepare an amendment to this Agreement to reimburse the Recipient for the allowable costs of qualifying change orders.
- The Recipient will make payments to its contractor on a work-progress basis. The Recipient will submit requests for reimbursement of certified costs to the State on state-approved forms. The State will reimburse the Recipient for the state and federal shares of the approved Project costs.
 - a. At regular intervals, the Recipient or the Project Engineer will prepare a partial estimate in accordance with the terms of the contract, special provisions, and standard specifications for the Project(s). Partial estimates must be completed no later than one month after the work covered by the estimate is completed. The Project Engineer and the contractor must certify that each partial estimate is true and correct, and that the costs have not been included on a previous estimate.

- b. Following certification of the partial estimate, the Recipient will make partial payments to the contractor in accordance with the terms of the contract, special provisions, and standard specifications for the Project(s).
- c. Following certification of the partial estimate, the Recipient may request reimbursement from the State for costs eligible for federal and state participation. A copy of the partial estimate must be included with the Recipient's request for payment. Reimbursement requests and partial estimates should not be submitted if they cover a period in which there was no progress on the Project.
- d. Upon completion of the Project(s), the Recipient will prepare a final estimate in accordance with the terms of the contract, special provisions, and standard specifications for the Project(s). The final estimate must be certified by the Recipient, Project Engineer and the contractor.
- e. Following certification of the final estimate, the Recipient will make final payment to the contractor in accordance with the terms of the contract, special provisions, and standard specifications for the Project(s).
- f. Following certification of the final estimate, the Recipient may request reimbursement from the State for costs eligible for federal and state participation. A request for final payment must be submitted to the State along with those project records required by the State.
- 7. For a Project which involves the purchase of equipment, the Recipient will be reimbursed by the State in one lump sum after the Recipient: (1) has acquired both possession and unencumbered title to the equipment; and (2) has presented proof of payment to the State, and (3) a certificate that the equipment is not defective and is in good working order. The Recipient will keep such equipment, properly stored, in good repair, and will not use the equipment for any purpose other than airport operations.
- 8. If the Project involves force-account work or project donations, the Recipient must obtain the written approval of the State and Federal Aviation Administration (FAA). Force-account work performed or project donations received without written approval by the State will not be reimbursed under this Agreement. Force-account work must be done in accordance with the schedule of prices and terms established by the Recipient and approved by the State.
- 9. Pursuant to Minnesota Statutes Section 360.305, subdivision 4 (g) (1), the Recipient will operate its airport as a licensed, municipally-owned public airport at all times of the year for a period of 20 years from the date the Recipient receives final reimbursement under this Agreement. The Airport must be maintained in a safe, serviceable manner for public aeronautical purposes only. The Recipient will not transfer, convey, encumber, assign, or abandon its interest in the airport or in any real or personal property, which is purchased or improved with State aid funds without prior written approval from the State. If the State approves such transfer or change in use, the Recipient must comply with such conditions and restrictions as the State may place on such approval. The obligations imposed by this clause survive the expiration or termination of this Agreement.
- 10. This Agreement may be terminated by the Recipient or State at any time, with or without cause, upon ninety (90) days written notice to the other party. Such termination will not remove any unfulfilled financial obligations of the Recipient as set forth in this Agreement. In the event of such a termination, the Recipient will be entitled to reimbursement for eligible expenses incurred for work satisfactorily performed on the Project up to the date of termination. The State may immediately terminate this Agreement if it does not receive sufficient funding from the Minnesota Legislature or other funding source, or such funding is not provided at a level sufficient to allow for the continuation of the work covered by this Agreement. In the event of such termination, the Recipient will be reimbursed for work satisfactorily performed up to the effective date of such termination to the extent that funds are available. In the event of any complete or partial state government shutdown due to a failure to have a budget approved at the required time, the State may suspend this Agreement, upon notice to the Recipient, until such government shutdown ends, and the Recipient assumes the risk of non-payment for work performed during such shutdown.
- 11. Pursuant to Minnesota Rules 8800.2500, the Recipient certifies that (1) it presently has available sufficient unencumbered funds to pay its share of the Project; (2) the Project will be completed without undue delay; and (3) the Recipient has the legal authority to engage in the Project as proposed.
- 12. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the Recipient will maintain such records and provide such information, at the request of the State, so as to permit the Department of Transportation, the Legislative Auditor, or the State Auditor to examine those books, records, and accounting procedures and practices of the Recipient relevant to this Agreement for a minimum of six years after the expiration of this Agreement.

- 13. The Recipient will save, defend, and hold the State harmless from any claims, liabilities, or damages including, but not limited to, its costs and attorneys' fees arising out of the Project which is the subject of this Agreement.
- 14. The Recipient will not utilize any state or federal financial assistance received pursuant to this Agreement to compensate, either directly or indirectly, any contractor, corporation, partnership, or business, however organized, which is disqualified or debarred from entering into or receiving a State contract. This restriction applies regardless of whether the disqualified or debarred party acts in the capacity of a general contractor, a subcontractor, or as an equipment or material supplier. This restriction does not prevent the Recipient from utilizing these funds to pay any party who might be disqualified or debarred after the Recipient's contract award on this Project.
- 15. All contracts for materials, supplies, or construction performed under this Agreement will comply with the equal employment opportunity requirements of Minnesota Statutes Section 181.59.
- 16. The amount of this Agreement is limited to the dollar amounts as defined in Article 3 above. Any cost incurred above the amount obligated by the State is done without any guarantee that these costs will be reimbursed in any way. A change to this Agreement will be effective only if it is reduced to writing and is executed by the same parties who executed this Agreement, or their successors in office.
- 17. For projects that include consultant services, the Recipient and its consultant will conduct the services in accordance with the work plan indicated in the Recipient's contract for consultant services, which shall be on file with the State's Office of Aeronautics. The work plan is incorporated into this Agreement by reference. The Recipient will confer on a regular basis with the State to coordinate the design and development of the services.
- 18. The parties must comply with the Minnesota Government Data Practices Act, as it relates to all data provided to or by a party pursuant to this Agreement.
- 19. Minnesota law, without regard to its choice-of-law provisions, governs this Agreement. Venue for all legal proceedings arising out of this Agreement, or its breach, must be in the appropriate state or federal court with competent jurisdiction in Ramsey County, Minnesota.
- 20. For projects including federal funding, the Recipient must comply with applicable regulations, including, but not limited to, Title 14 Code of Federal Regulations, subchapter I, part 151; and Minnesota Rules Chapter 8800. The Catalog of Federal Domestic Assistance (CFDA) number for the federal Airport Improvement Program is 20.106.
- 21. For all projects, the Recipient must comply, and require its contractors and consultants to comply, with all federal and state laws, rules, and regulations applicable to the work. The Recipient must advertise, let, and award any contracts for the project in accordance with applicable laws. The State may withhold payment for services performed in violation of applicable laws.
- 22. Under this Agreement, the State is only responsible for receiving and disbursing federal and state funds. Nothing in this Agreement will be construed to make the State a principal, co-principal, partner, or joint venturer with respect to the Project(s) covered herein. The State may provide technical advice and assistance as requested by the Recipient, however, the Recipient will remain responsible for providing direction to its contractors and consultants and for administering its contracts with such entities. The Recipient's consultants and contractors are not intended to be third party beneficiaries of this Agreement.

RESOLUTION

AUTHORIZATION TO EXECUTE MINNESOTA DEPARTMENT OF TRANSPORTATION GRAND AGREEMENT FOR AIRPORT IMPROVEMENT EXCLUDING LAND ACQUISITION

It is resolved by the **City of Worthington** as follows:

- That the state of Minnesota Agreement No. <u>1026622</u>,
 "Grant Agreement for Airport Improvement Excluding Land Acquisition," for
 State Project No. A5301-80 at the Worthington Municipal Airport is accepted.
- 2. That the Mayor and Clerk are authorized to execute this Agreement and any amendments on behalf of the **City of Worthington**.

CERTIFICATION

STATE OF MINNESOTA COUNTY OF NOBLES

I certify that the above Resolution is a true and correct copy of the Resolution adopted by the City Council of the City of Worthington at an authorized meeting held on the 26th day of September, 2016 as shown by the minutes of the meeting in my possession.
