INTRODUCTORY SECTION

FINANCE DEPARTMENT

CITY OF WORTHINGTON ■ 303 NINTH STREET, PO BOX 279 ■ WORTHINGTON, MN 56187 TELEPHONE: (507) 372-8600 ■ FAX: (507) 372-8630 ■ www.ci.worthington.mn.us

June 25, 2018

To the Honorable Mayor, Members of the City Council and Citizens of the City of Worthington:

Minnesota statutes require all cities to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants or the state auditor. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Worthington for the fiscal year ended December 31, 2017.

This report consists of management's representations concerning the finances of the City of Worthington. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Worthington has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliability information for the preparation of the City of Worthington's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Worthington's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Worthington's financial statements have been audited by Drealan Kvilhaug Hoefker & Co., P.A., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Worthington for the fiscal year ended December 31, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Worthington's financial statements for the fiscal year ended December 31, 2017, are fairly presented in conformity with GAAP accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP accounting principles generally accepted in the United States of America requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Worthington's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Worthington, incorporated in 1873, is located in the southwestern part of the State of Minnesota, and serves as a regional trade and service center for the surrounding agricultural area. The City of Worthington currently occupies a land area of 9.0 square miles and serves a population of 13,145. The City of Worthington is empowered to levy a property tax on both real estate and personal properties located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the governing Council.

The City of Worthington has operated under the council-administrator form of government since 1973. Policy making and legislative authority are vested in a City Council consisting of the Mayor and five other members. The governing Council is responsible, among other things, for passing ordinances, adopting the budgets, appointing committees, and hiring the City Administrator. The City Administrator is responsible for carrying out the policies and ordinances of the Council, for overseeing the day-to-day operations of the City government, and for appointing the heads of various departments. The Council is elected on a non-partisan basis. Council members serve four-year staggered terms, with three Council members elected every four years and the Mayor and two Council members elected in staggered four-year terms. Four of the Council members are elected by district. The Mayor and the one remaining Council member are elected at-large.

The City of Worthington provides a full range of services, including police and fire protection; the construction and maintenance of highways, streets, and other infrastructure; water, sewer and electric services, and recreational activities and cultural events.

The Council is required to adopt a final budget by no later than the close of the calendar year. This annual budget serves as the foundation for the City of Worthington's financial planning and control. The budget is prepared by fund, function (e.g. public safety), and department (e.g. police). Department heads may transfer resources within a department as they see fit. Informal approval is given by the City Administrator and Finance Director. Transfers between departments, however, need Council approval.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Worthington operates.

Local economy. The City serves as the county seat and regional economic center for Nobles County in Southwestern Minnesota. In 2017, the City issued 567 building permits (32 permits less than issued in 2016) for a cumulative total of \$28.62 million of construction work, which is 38% greater than the construction value reported in 2016. The current economic environment has resulted in the investment of over \$88 million in building activities within the corporate limits of Worthington between January 2013 and December 2017.

The City has undertaken a number of initiatives over the past year to address needs that have been identified to keep Worthington on the path of growth and vitality.

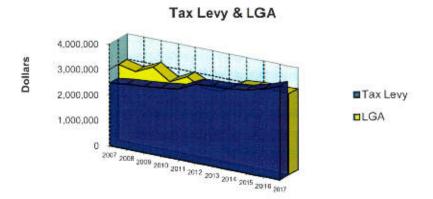

Workforce Housing grant awarded by the Minnesota Department of Employment and Economic Development. Staff is working with multi-family residential developers to construct a market rate rental project. The City assisted Minnesota West Community College in their on-campus student housing project with funding assistance through a \$900,000 loan.

The City will be pursuing re-imposition of a local option sales and excise tax this year. The referendum question will be brought to voters in November's general election and, if passed, will be brought to the State Legislature in 2019.

Long-term financial planning. Unassigned fund balance in the general fund at year end was 52 percent of the total general fund budgeted expenditures. This amount exceeds the policy guidelines (35%-50%) set by the Council for budgetary and planning purposes. This year-end amount is in excess of the target percentages set by the policy guidelines (2015 percentage was 61% and 2016 percentage was 53%).

The City maintains a five-year Capital Improvement Program which serves as its planning document to ensure that its facilities and infrastructure are well maintained and operating in peak condition. Projects are identified by name, cost and funding sources (property taxes, reserves, bonding, assessments, utility revenue, state/federal funding or other). The City also funds its equipment purchases through it budgetary process annually. This ensures that when a piece of equipment is scheduled to be replaced, a majority (if not all) of the funding is available for the purchase of the equipment. This allows the City to stabilize the impact on property tax revenues by building the required amounts over a period of time.

The City raised its property tax levy 7.89% for taxes payable in 2017. Following is a graph comparing the City's tax levy and LGA received in the appropriate years.

The City successfully negotiated three-year contracts for Law Enforcement Labor Services, Inc, L.E.L.S.Local #4 and Local #274; and a two-year contract for International Union of Operating Engineers, Local #49, AFL-CIO. The increases for the two law enforcement unions and non-aligned employees settled for January 1 cost-of-living-adjustment (COLA) for years 2018-2020 of 3.5%, 3.0% and 3.0%, respectively. The local 49 union settled for COLA adjustments of 3.0% for both 2018 and 2019. Part of the negotiations for Local 49 union also included that members of the union will be joining the health insurance program offered through the union.

Major Initiatives. The City has many accomplishments to report for 2017 and beyond. The following are some of the major initiatives addressed during the year.

Housing Lot Shortage. The shortage of buildable lots is being addressed through the allocation of \$3 million from the City and Public Utilities. The funds are intended to develop residential subdivisions that serve those looking for locations to build starter homes and those desiring middle to upper value homes.

City Facility Needs. The City is addressing facility needs through the relocation of the municipal liquor store into a larger building located in a higher retail traffic setting. The Public Works Department has their employees located in separate facilities. The Street Department is occupying a space that is too small to accommodate all of their equipment resulting in off-site storage. The Parks Department is remotely located from the street crew. The undersized and remote facilities impact efficiencies. The City recently purchased the MC Fitness building with the intent to move both departments into one building. Renovation of the new facility is likely to begin next year.

Lewis and Clark Regional Water System Project. The project received the final federal advance needed to complete the Minnesota portion of the project from the State of Minnesota in May. Contracts for the construction of pipeline to Worthington, the construction of the Worthington meter building and the construction of the new high service pump station have been awarded and actual construction is progressing. Substantial completion of the pump station is expected in July, the meter building in October and the pipeline in November. It is currently anticipated that Worthington will begin receiving water from Lewis and Clark by the end of November 2018.

Relevant Financial Policies. The City has a policy regarding General Fund reserve balances. The City plans for an unassigned fund balance in the General Fund equivalent to 35%-50% of the subsequent year's budgeted expenditures to provide working capital between semi-annual property tax settlements. Since the property tax settlements are received by the City in July and December, the City needs sufficient cash reserves to avoid short-term borrowing to finance operations. The City has unspendable or restricted fund balances for deferrals, prepaid items, inventories, assets held for resale and other legal obligations. The City also reports committed and assigned fund balances for special purposes.

The primary goal of the City's investment policy is to ensure the safety of the principal invested. Cash temporarily idle during the year is invested in certificates of deposit, obligations of the U.S. Treasury and government agencies. Cash balances from all City funds are pooled into an investment fund and investment income is distributed on a pro-rata basis at June 30 and December 31. A cash flow analysis is utilized and staggered in a way to meet projected liquidity needs.

Capital financing for major improvements is provided through improvement bonds, general obligation bonds, tax increment bonds, or revenue bonds. Depending on the project, special assessments may be levied upon properties to share in the cost of the improvement project. The special assessments are collected over a period of time, typically over the life of the bond issue, and are used to help satisfy the improvement bond debt or reimburse the fund used to finance the project.

The City Council has also adopted financial management policies in order to allow for the planning of adequate funding of services desired by the public, to manage City finances wisely, and to carefully account for public funds. These policies are reviewed each year when the annual budget is adopted. The financial management policies included: operating budget policies; revenue policies; accounting, auditing and financial reporting policies; investment policies; debt policies; capital improvement policies; and risk management policies.

The City Council has adopted a comprehensive set of internal control procedures. The City's accounting system was developed and is continually evaluated to assure the adequacy of internal controls. Internal accounting controls are designed to provide reasonable but not absolute assurance in the areas of: safeguarding assets against loss from unauthorized use or disposition, reliability of financial records, and convenience of access for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the evaluation of cost and benefits requires estimates and judgments by management, and the cost of a control should not exceed the benefits likely to be derived. All internal controls are evaluated against the above criteria. It is our belief that the City's internal accounting controls adequately safeguard the City's assets and also provide reasonable assurance of properly recording financial transactions.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Worthington for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2016. This was the twenty-ninth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. Credit also must be given to the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Worthington's finances.

Respectfully submitted,

turen Polinison

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the City Council City of Worthington, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Worthington, Minnesota, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Worthington, Minnesota as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparisons for the General and WRH Funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, and the pension schedules as required supplementary information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Worthington, Minnesota's basic financial statements. The combining and individual nonmajor fund financial statements and individual fund budget to actual schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, and the individual fund budget to actual schedules, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The information identified in the Table of Contents as the Introductory and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued under separate cover, our report dated June 25, 2018, on our consideration of the City of Worthington, Minnesota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Worthington, Minnesota's internal control over financial reporting and compliance.

Worthington, Minnesota June 25, 2018 Worthington

Management's Discussion and Analysis

As management of the City of Worthington, we offer readers of the City of Worthington's financial statements this narrative overview and analysis of the financial activities of the City of Worthington for the fiscal year ended December 31, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-4 of this report. All amounts in the Management's Discussion and Analysis are expressed in thousands of dollars.

Financial Highlights

- The assets of the City of Worthington exceeded its liabilities at the close of the most recent fiscal year by \$185,997 (net position). Of this amount, \$55,321 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$8,451. The majority of the increase came from a combination of an
 increase in cash and cash equivalents/investments, an increase in work in progress and an increase in net
 pension liability.
- As of the close of the current fiscal year, the City of Worthington's governmental funds reported combined ending fund balances of \$33,656, an increase of \$764 in comparison with the prior year. Approximately \$2,366 is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balances for the general fund was \$3,934, or 54 percent
 of total general fund expenditures.
- The City of Worthington retired existing debt of \$1,340 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Worthington's basic financial statements. The City of Worthington's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City of Worthington's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City of Worthington's assets, liabilities and deferred inflows of resources, with the difference between assets and the sum of liabilities and deferred inflows of resources reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Worthington is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused paid time off (PTO) leave.)

Both of the government-wide financial statements distinguish functions of the City of Worthington that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Worthington include general government, public safety, public works (non-enterprise), culture-recreation and conservation & development. The business-type activities of the City of Worthington include water, municipal wastewater, electric, industrial wastewater facility, storm water management, street lighting, liquor, airport, and cable television.

The government-wide financial statements include the City of Worthington itself (known as the *primary government*). The Water and Light Commission, although also legally separate, function for all practical purposes as departments of the City of Worthington, and therefore have been included as an integral part of the primary government.

The government-wide financial statements can be found on pages 23-25 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Worthington, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Worthington can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Worthington maintains twenty-five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, Small Cities Grant fund, WRH fund, PIR series funds, and improvement construction fund, all of which are considered to be major funds. Data from the other twenty governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of Worthington adopts an annual appropriated budget for its general fund and all special revenue funds. Budgetary comparison statements have been provided for the general fund (page 30) and the major special revenue Small Cities Grant fund (page 31) and WRH fund (page 32) as well as all the non-major special revenue funds (pages 92-97) to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 26-32 of this report.

Proprietary funds. The City of Worthington maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Worthington uses enterprise funds to account for its water, municipal wastewater, electric, industrial wastewater facility, storm water management, street lighting, liquor, airport, and cable television. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of Worthington's various functions. The City of Worthington uses internal service funds to account for its data processing. Because this service predominantly benefits governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, municipal wastewater, electric, industrial wastewater facility, liquor, and airport funds, which are considered to be major funds of the City of Worthington. Data from the other three enterprise funds are combined into a single aggregated presentation. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the nonmajor proprietary and internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 34-43 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City of Worthington's own program. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 44 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 45-80 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor governmental, nonmajor proprietary, internal service and agency funds are presented immediately following the notes to financial statements. Combining and individual fund statements and schedules can be found on pages 88-114 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Worthington, assets exceeded liabilities by \$185,997 at the close of the most recent fiscal year.

By far the largest portion of the City of Worthington's net position (60.3 percent) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment) less any related debt used to acquire those assets that is still outstanding. The City of Worthington uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Worthington's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Worthington's Net Position

| | Governmental Activities | | | | Busine Acti | 00000 | Total | | | | | |

| Unrestricted | | 31,168 | | 29,971 | | 24,153 | | 20,391 | | 55,321 | | 50,362 |
| Total net position | \$ | 83,041 | S | 79,475 | S | 102,956 | \$ | 98,070 | S | 185,997 | S | 177,545 |

A portion of the City of Worthington's net position (9.9 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* (\$55,321) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of Worthington is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate business-type activities. The same situation held true for the prior fiscal year.

The government's net position increased by \$8,451 during the current fiscal year. The majority of the increase
came from a combination of an increase in cash and cash equivalents/investments, an increase in
improvements, infrastructure and machinery and equipment and an increase in net pension liability.

Governmental activities. Governmental activities increased the City of Worthington's net position by \$3,566, thereby accounting for 42.2 percent of the total increase in the net position of the City of Worthington. Key elements of this increase are as follows:

 The main reasons for the increase relates to a mixture of certain revenues increasing over 2016 as well as certain expenditures decreasing. Capital grants and contributions revenues increased due to the type of projects completed and revenue sources available. The public safety expenditures decreased due to difference in proportionate share of pension expenses.

Expenses and Program Revenues - Governmental Activities

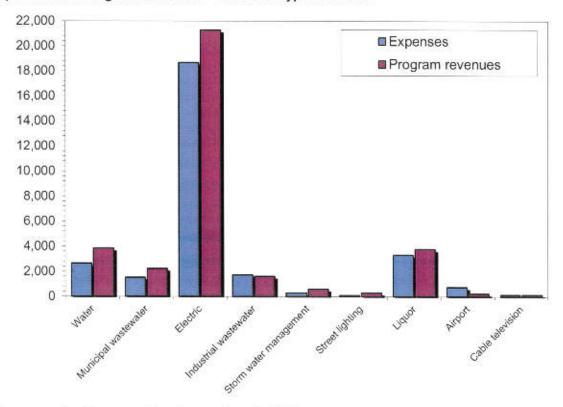

Revenues by Source - Governmental Activities

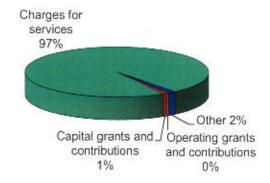

Overall, governmental activities expenses decreased by \$1,840 in 2017 from 2016.

Business-type activities. Business-type activities increased the City of Worthington's net position by \$4,886 accounting for 57.3 percent of the total growth in the City's net position. Key elements of this increase include water revenues that were more than expected due to usage (\$676) and expenditures less than expected (\$602), mainly due to capital related expenditures. Municipal Wastewater revenues that were more than expected due to investment earnings and other revenues (\$149) and expenditures less than expected (\$815), mainly due to capital related expenditures. Electric revenues that were more than expected due to usage (\$1,202) and expenditures less than expected (\$607), mainly due to capital related expenditures.

Financial Analysis of the Government's Funds

As noted earlier, the City of Worthington uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental funds. The focus of the City of Worthington's governmental funds is to provide information on nearterm inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Worthington's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of Worthington's governmental funds reported combined ending fund balances of \$33,656, an increase of \$764 in comparison with the prior year. Committed, assigned and unassigned fund balance, which is available for spending at the government's discretion, has a balance of \$31,138 at year end. The remainder of fund balance is in nonspendable or restricted to indicate that it is not available for new spending because it has already been obligated 1) to pay debt service (\$1,986), 2) for land held for resale (\$252), 3) for Buffalo Ridge (\$144), 4) for prepaid items (\$103), and 5) for inventory (\$32) and other restrictions.

The general fund is the chief operating fund of the City of Worthington. At the end of the current fiscal year, unassigned fund balance of the general fund was \$3,934, while total fund balance was \$8,136. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 54 percent of total general fund expenditures, while total fund balance represents 112 percent of that same amount.

The fund balance of the City of Worthington's general fund decreased by \$415 during the current fiscal year. The key factors of this decrease are as follows:

- Fines and forfeits revenues were less than budgeted mainly due to court fines and administrative fees coming
 in less than budgeted.
- Miscellaneous revenues were less than budgeted mainly due to loss on investments.

The Small Cities Grant fund has a fund balance of \$415 which increased by \$21 due to intergovernmental and miscellaneous revenues and no expenditures.

The WRH fund has a fund balance of \$12,681 which increased by \$178 due mainly to investment earnings exceeding expectations.

The PIR Series Bonds fund has a fund balance of \$1,955 which is an increase of \$9 due to special assessments and interest earnings.

The Improvement Construction fund had a fund balance of \$4,545 which is a decrease of \$150. The key factors of this decrease are as follows:

Intergovernmental revenue received and capital projects started that were less than budgeted.

Proprietary funds. The City of Worthington's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the water, municipal wastewater, electric, industrial wastewater, liquor, and airport funds at the end of the year amounted to \$753, \$7,173, \$11,902, \$980, \$574, and \$736, respectively. The total growth (decrease) in net position for the water, municipal wastewater, electric, industrial wastewater, liquor, and airport were \$1,318, \$824, \$2,237, \$(93), \$258, and \$(323) respectively. Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Worthington's business-type activities.

General Fund Budgetary Highlights

During the year there was a \$105 increase in appropriations between the original and final amended budget. Following are the main components of the increase:

- \$40 supplemental appropriations to the general government department for the purchase of aerial mapping
 and engineering technician vehicle for the engineering department. The appropriations were funded by
 existing reserves in the equipment revolving schedule.
- \$28 supplemental appropriations to the public safety department for the purchase of a fire hoses/nozzles and pagers for the fire department. The appropriations were funded by existing reserves in the equipment revolving schedule.

The most significant variances between the final budget and actual expenses in the general fund occurred in the general government (favorable - \$236), public works (favorable - \$84) and conservation and development (favorable - \$63). The favorable variance in general government was largely due to engineering administration capital related expenditures less than expected and community & economic development personnel position open for a period of time after an employee accepted a new position elsewhere and expenditures not made for the Worthington Rediscovered program or the annual housing grant writing. The favorable variance in the public works expenditures was largely due to overall underspending in personnel services, supplies and other services and charges. The favorable variance in conservation and development expenditures was due to capital expenditures for lake improvement not completed.

Capital Asset and Debt Administration

Capital assets. The City of Worthington's investment in capital assets for its governmental and business-type activities as of December 31, 2017, amounts to \$119,427 (net of accumulated depreciation). This investment in capital assets includes land, buildings and structures, improvements, machinery and equipment, park facilities, streets and intangible assets. The total increase in the City of Worthington's investment in capital assets for the current fiscal year was .97 percent (a .96 percent increase for governmental activities and a .97 percent increase for business-type activities).

Major capital asset events during the current fiscal year included the following:

- Construction began but not completed on recreation projects (\$13), street projects (\$570), water projects (\$93), municipal wastewater projects (\$39) and stormwater projects (\$64).
- Many street construction projects were in progress but not completed by the end of 2017.

Additional information on the City of Worthington's capital assets can be found in note 4(C) on pages 57-58 of this report.

Long-term debt. At the end of the current fiscal year, the City of Worthington had total bonded debt outstanding of \$8,090. Of this amount, \$7,000 comprises debt backed by the full faith and credit of the government. The remainder of the City of Worthington's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

Governmental

The City of Worthington's total debt decreased by \$1,197 (12.8 percent) during the current fiscal year. The City of Worthington retained an AA- rating from Standard and Poor's for general obligation debt.

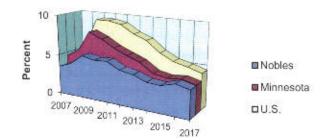

State statutes limit the amount of general obligation debt a governmental entity may issue to 3 percent of its estimated assessed value. The current debt limitation for the City of Worthington is \$20,849, which is significantly in excess of the City of Worthington's outstanding general obligation debt (see Table XIV, pages 140-141).

Additional information on the City of Worthington's long-term debt can be found in note 4(G) on pages 61-64 of this report.

Economic Factors and Next Year's Budgets and Rates

 The unemployment rate for Nobles County as of December 31, 2017 is 3.4 percent, which is lower than a year ago (3.8). This compares favorably to the State's average unemployment rate of 3.5 percent and the national average rate of 4.4 percent.

Unemployment Rates

Inflationary trends in the region compare favorably to national indices.

These factors were considered in preparing the City of Worthington's budget for the 2017 fiscal year.

During the current fiscal year, unassigned fund balance in the general fund decreased to \$3,934.

Requests for Information

This financial report is designed to provide a general overview of the City of Worthington's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, P.O. Box 279, Worthington, MN 56187.

EXHIBIT 5

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2017

Amounts reported for governmental activities in the statement of activities (See Exhibit 2) are different because:

| | 7 | | |
|---|--|----|-----------|
| 1 | Net change in fund balances - total governmental funds (See Exhibit 4) | \$ | 763,718 |
| | Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets are depreciated over their estimated useful lives. | | 1,249,749 |
| | The net effect of various miscellaneous transactions involving capital assets (i.e., sales and trade-ins) is to increase net assets. | | (78,664) |
| | Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | | (14,189) |
| | Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long- term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments. | | 1,190,000 |
| | Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. | | (190,860) |
| | Governmental Funds report Fire Department pension contribution as expenditures, however pension expense is reported in the statement of activities. This is the amount by which pension expense exceeded pension contributions. | | (79,628) |
| | Internal service funds are used by management to charge the costs of certain activities to individual funds. | _ | 725,441 |
| | Change in net position of governmental activities (See Exhibit 2) | \$ | 3,565,567 |
| | | | |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting entity

The City of Worthington is a municipal corporation formed under Section 412 of *Minnesota State Statutes* and operates under an elected Mayor and five-member Council. The Council and Mayor are elected on rotating terms in each even-numbered year. The accompanying financial statements present the government entities for which the City is considered to be financially accountable.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the City. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely significantly on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, service or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major government funds:

The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement focus, basis of accounting, and financial statement presentation (Continued)

The Small Cities Grant fund accounts for revenues and expenditures for the rehabilitation of commercial property located in downtown Worthington and residential property located northeast of the downtown area.

The WRH fund accounts for the activity surrounding the use of money obtained from the sale of the Cityowned hospital.

The permanent improvement revolving (PIR) series bonds fund accounts for resources accumulated and payments for principal and interest on long-term general obligation debt.

The improvement construction fund accounts for major capital expenditures for the street paving management program of the City.

The City reports the following major proprietary funds:

The water fund accounts for activities related to the operation of a water distribution system.

The municipal wastewater fund accounts for activities related to the operation of a wastewater distribution system.

The electric fund accounts for activities related to the operation of electric generation and distribution systems.

The industrial wastewater fund accounts for the operations of the City-owned industrial wastewater plant.

The liquor fund accounts for the activities related to the operation of the municipal owned liquor store.

The airport fund accounts for activities related to the operation of an airport.

Additionally, the City reports the following fund types:

The internal service funds account for data processing, safety promotion, compensated absences and health insurance services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis.

The fiduciary funds are used to account for assets held by the City in a trustee capacity for individuals, private organizations, other governments and/or other funds. The City's fiduciary funds are custodial in nature and do not involve measurement of results of operations. The following depicts the fund and main function:

Olson water – used to improve lake quality in the area

Retiree's health insurance – pays for future health insurance premiums

Garbage collection - accounts for the collection of garbage, paid to Schaap Sanitation

Bicentennial - used for future events

Waste management – accounts for the landfill fee, paid to Nobles County

Salstrom bequest – used in the purchase of equipment for senior dining

Tourism promotion – accounts for lodging tax fees, paid to Chamber of Commerce

Economic revolving – used for possible business expansions

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement focus, basis of accounting, and financial statement presentation (Continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payments in-lieu of taxes and other charges between the City's enterprise functions and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the City's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sale and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The City's fiduciary funds are all agency funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, and then unrestricted resources as they are needed. When unrestricted resources are available for use, it is the City's policy to use resources in the following order: 1) committed 2) assigned 3) unassigned.

D. Assets, liabilities, and net position or equity

1. Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and investments with original maturities of three months or less from the date of acquisition.

Cash balances from all funds are combined and invested to the extent available in certificates of deposit and other authorized investments. Earnings from these investments are allocated to the respective funds on the basis of the cash balance in each fund.

2. Receivable and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans).

All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

All trade (utility) and property tax receivables are shown at a gross amount, since both taxes and trade (utility) receivables are assessable to the property taxes and are collectible upon sale of the assessed property. Hospital account receivables are reported net of estimated uncollectibles.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, liabilities, and net position or equity (Continued)

Receivable and payables (Continued)

Property tax is considered receivable on January 1, the date the tax becomes a lien, and is recorded as a receivable by the City at that date. Revenues are accrued and recognized in the year collectible.

Real property taxes may be paid in two equal installments. The first payment is due on May 15 for both non-agricultural and agricultural property and the second payment is due on October 15 for non-agricultural and November 15 for agricultural property. Personal property taxes may be paid on May 15 and October 15. The County is the collection agent for the levy. The County normally remits the collections to the City during the months of June and November.

Taxes not collected as of each December 31 are then reclassified as taxes receivable-delinquent. No allowance for uncollectible taxes has been provided because such amounts are not expected to be material.

3. Inventories and prepaid items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are reported using the consumption method and recorded as expenditures/expenses at the time of consumption.

Capital assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements, which uses the full accrual basis of accounting. Infrastructure has been capitalized retroactively to 1980. The infrastructure is recorded at historical cost, which the City was able to obtain through past records. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (except for the water, electric & municipal wastewater funds which are \$1,000 and easements which are \$100,000) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at acquisition value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the City is depreciated using the straight line method over the following estimated useful lives:

| | ALL OTHER |
|-----------------------------------|-------------|
| Infrastructure | 30-50 years |
| Improvements other than buildings | 10-50 years |
| Building and structures | 20-50 years |
| Machinery and equipment | 5-35 years |
| Furniture and fixtures | 5-15 years |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, liabilities, and net position or equity (Continued)

Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City only has one item that qualifies for reporting in this category. It is the deferred outflows of resources related to pensions reported in the government-wide and enterprise funds Statement of Net Position. This deferred outflow results from differences between expected and actual experience, changes in assumptions, difference between projected and actual earnings on pension plan investments, and from contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension standards.

In addition to liabilities, statements of financial position or balance sheets will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items which qualify for reporting in this category.

The first item, unavailable revenue, arises only under a modified accrual basis of accounting and therefore is only reported in the governmental funds balance sheet. The governmental funds report unavailable revenue from special assessments. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

The second item, deferred inflows of resources related to pensions, is reported in the government-wide and enterprise funds Statement of Net Position. This deferred inflow results from differences between expected and actual experience, changes in assumptions, difference between projected and actual earnings on pension plan investments. These amounts are deferred and amortized as required under pension standards.

Compensated absences

According to City policy, unused paid time off (PTO) is payable upon termination of employment. PTO payments are made at the employee's current wage rate. The City pays the vested extended sick leave bank (ESLB) amount per contract to an employee upon termination. Retiring employees have the option to use accrued PTO and vested ESLB hours for post-retirement benefits (see Note 5D).

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term debt reported as liabilities in the applicable governmental activities, business-type activities, and proprietary fund type statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, liabilities, and net position or equity (Continued)

8. Fund balance classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

Nonspendable - consists of amounts that are not in spendable form, such as prepaid items/inventories.

Restricted – consists of amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed – consists of internally imposed constraints. These constraints are established by Resolution of the City Council. Committed amounts cannot be used for any other purpose unless the City Council modifies or rescinds the commitment by resolution.

Assigned – consists of internally imposed constraints. These constraints reflect the specific purpose for which it is the City's intended use. These constraints are established by the City Council and/or management. Pursuant to City Council Resolution, the City's Treasurer is authorized to establish assignments of fund balance.

Unassigned – is the residual classification for the general fund and also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, then use unrestricted resources as they are needed.

When committed, assigned or unassigned resources are available for use, it is the City's policy to use resources in the following order; 1) committed 2) assigned and 3) unassigned.

Net position

Net position represents the difference between assets and liabilities. Net position is displayed in three components.

- a) Net investment in capital assets consists of capital assets, net of accumulated depreciation reduced by any outstanding debt attributable to acquire capital assets.
- b) Restricted net position consist of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.
- c) Unrestricted net position all other net position that do not meet the definition of "restricted" or "net investment in capital assets".

10. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, liabilities, and net position or equity (Continued)

11. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net pension of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes reconciliation between fund balance-total governmental funds and net position-governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of the \$11,499,198 difference are as follows:

| \$ | 8,090,000 |
|----------|------------|
| | 3,161,710 |
| | 65,390 |
| | (430) |
| <u> </u> | 182,528 |
| | |
| \$ | 11,499,198 |
| | \$ |

Another element of that reconciliation explains that "Internal service funds are used by management to charge the costs of data processing and various safety promotions and insurance to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position." The details of this \$981,627 difference are as follows:

| Net position of the internal service fund | \$ | 1,010,040 |
|--|---|-----------|
| Less: Internal payable representing charges in excess of cost to | | |
| business-type activites-current year | Ť <u>ě. </u> | (28,413) |
| Net adjustment to increase fund balance-total governmental | | |
| funds to arrive at net position-governmental activities | \$ | 981,627 |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The "net change in fund balances" for governmental funds differs from the "change in net position" for governmental activities reported in the statement of activities. The differences arise primarily from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds.

Capital related items

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$1,249,749 difference are as follows:

| Capital outlay Less: Depreciation expense | - | 3,827,727 (2,577,978) |
|--|----------|--------------------------|
| Net adjustment to increase net changes in fund balances-total governmental | | 4 040 740 |
| funds to arrive at changes in net position of governmental activities. | \$ | 1,249,749 |

Another element of that reconciliation states that "The net effect of various miscellaneous transactions involving capital assets (i.e., sales and trade-ins) is to increase net position." The details of this \$78,664 difference are as follows:

The statement of activities, only the gain on the sale of capital asset is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital asset sold.

The statement of activities reports gains(losses) arising from the trade-in of existing capital assets to acquire new capital assets. Conversely, governmental funds do not report any gain or loss on trade-in of capital assets.

Net adjustment to decrease net changes in fund balances-total governmental fund to arrive at changes in net position of governmental activites.

\$ (78,664)

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

 Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (Continued)

Long-term debt transactions

Another element of that reconciliation states that "the issuance of long-term debt (i.e., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$1,190,000 difference are as follows:

Principal repayments:

General obilgation debts

\$ 1,190,000

Net adjustment to increase net changes in fund balances-total governmental funds to arrive at changes in net position of governmental activities.

\$ 1,190,000

Another element of that reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$190,860 difference are as follows:

| Compensated absences | \$ | (15,436) |
|--|----|-----------|
| Accrued interest payable | | (182,528) |
| Amortization of premiums | | 7,143 |
| Amortization of discounts | - | (39) |
| Net adjustment to decrease net changes in fund balances-total governmental | | |
| funds to arrive at changes in net position of governmental activities. | \$ | (190,860) |

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary information

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP). Annual appropriated budgets are adopted by the City Council for the general and special revenue funds.

Budgetary control is maintained at the object category of expenditures within each activity (function). The level of control (level at which expenditures may not exceed budget) is maintained at each individual fund, except for the general fund. The general fund is reviewed at the department level (general government, public safety, public works, culture and recreation, and conservation and development); however, the overall budget of the general fund is the responsibility of the City Administrator. The City Administrator must obtain approval from the City Council for all budget transfers and departmental overages.

The Council made several supplemental budgetary appropriations throughout the year. The general fund received additional appropriations for expenditures of \$67,710. These will be funded through existing reserves. The recreation fund received an additional appropriation for expenditures of \$29,844. This will be funded through existing reserves.

Budgeted expenditure appropriations lapse at year-end unless a carryover of appropriations is completed and approved by the City Administrator.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (Continued)

A. Budgetary information (Continued)

Formal budgetary integration is employed as a management control device during the year for the general fund and special revenue funds. Formal budgetary integration is not employed for debt service funds because effective budgetary control is alternatively achieved through general obligation bond indenture provisions.

Budgetary control for capital projects is accomplished through the use of project controls. The City Administrator submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.

Public hearings are conducted to obtain taxpayer comments.

The budget is legally enacted through passage of a resolution. The City Council has given authority, through passage of a resolution, to the City Administrator to authorize transfers of budgeted amounts between departments within any fund. Each director may authorize budget transfers between object codes within a department, so long as the total budget for the department remains the same.

The General fund operating budget includes an account for contingencies. The City Council may authorize, by resolution, a budget transfer from this contingency account to an area that is expected to overspend their budget.

Encumbrance accounting is employed in governmental funds. There were no encumbrances (e.g., purchase orders, contracts) outstanding at year-end.

B. Excess of expenditures over appropriations

In the Memorial Auditorium Fund the culture and recreation department's actual expenditures exceeded appropriations by \$9,248. The overage was due to increased personnel hours not originally budgeted directly related to movie ticket sales as well as purchases relating to the lighting system. Overages were covered by additional revenues as well as use of reserves. In the WRH Fund the general government department's actual expenditures exceeded appropriations by \$56,145. The overage was due to unrealized losses on investments. The excess expenditures were covered by surpluses in the interest earnings, other revenues and unrealized gains on investments

C. Deficit fund equity

The capital projects funds CCSI Redevelopment, Hotel TIF #15 and Northland Mall TIF #16 had deficit fund balances of \$217,163, \$284,472 and \$46,221, respectively as of December 31, 2017. The CCSI Redevelopment fund deficit is expected to be covered from future tax increments as residential lots are developed. The Hotel TIF #15 fund deficit is expected to be covered from future tax increments as they become collected. The Northland Mall TIF #16 fund deficit is expected to be covered from future tax increments and as commercial parcels are sold.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 4 - DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

As of December 31, 2017, the government had the following investments:

| Investment Type | Rating | | Fair Value | Weighted Average Maturity (Years) |
|-------------------------------------|--------|----|------------|--------------------------------------|
| U.S. Agencies | AAA | \$ | 47,830,473 | 2.63 |
| Certificates of deposit | N/A | | 2,764,105 | 0.34 |
| Total fair value | | \$ | 50,594,578 | |
| Portfolio weighted average maturity | | - | | 2.51 |

Interest rate risk. In accordance with the City's investment policy, the City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than nine months.

Credit risk. Both the Minnesota Statutes and the City Council approve of the following investment instruments:

- Direct or guaranteed U.S. Government obligations;
- Interest bearing deposits and certificates of deposits.

Custodial risk. The City does not presently have a custodial credit risk policy. All of the City's investments are adequately collateralized according to State statutes.

Other investment instruments which are approved by the Minnesota Statutes and the City Council, but have not been purchased by the City, follow:

- General obligations of the State of Minnesota or Minnesota municipalities;
- Commercial paper issued by United States corporations or their Canadian subsidiaries, of the highest quality, and maturing in 270 days or less;
- c. Repurchase or reverse repurchase agreements with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers;
- Futures contracts sold under authority of Minnesota Statutes 471.56, subdivision 5;
- e. Federal agency or instrumentality issues;
- Federally registered investment companies whose only investments are in direct or guaranteed U.S. Government obligations and/or Federal agency or instrumentality issues.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 4 - DETAILED NOTES ON ALL FUNDS(Continued)

D. Construction commitments

The government has active construction projects as of December 31, 2017. The projects include the sanitary sewer lift station. At year end the City's commitments with contractors are as follows:

| Sp | ent-to-Date | Remaining Commitment | | | |
|----|-------------|-------------------------|---|--|--|
| \$ | 792,011 | S | 1,207,689 | | |
| | 54,633 | | 811,897 | | |
| \$ | 54,633 | \$ | 811,897 | | |
| | | 54,633 | Spent-to-Date C \$ 792,011 \$ 54,633 \$ | | |

The high service pump station improvements are being funded with capital reserve financing. The airport runway rehab is being funded through federal and state grants as well as capital reserve financing.

E. Interfund receivables, payables, and transfers

The composition of interfund balances as of December 31, 2017, is as follows:

| Due | to/f | rom | other | funds: |
|-----|------|-------|-------|---------|
| Duc | 100 | 10111 | OHIOL | TUITUO. |

| Payable Fund | | Amount | |
|----------------------------|---|--|--|
| Nonmajor governmental fund | \$ | 29,831 | |
| Nonmajor governmental fund | | 234,333 | |
| Nonmajor governmental fund | | 46,221 | |
| Liquor fund | | 912,769 | |
| Nonmajor governmental fund | | 318,540 | |
| | \$ | 1,541,694 | |
| | Nonmajor governmental fund Nonmajor governmental fund Nonmajor governmental fund Liquor fund | Nonmajor governmental fund Nonmajor governmental fund Nonmajor governmental fund Liquor fund | |

The purpose of the \$29,831 interfund receivable was to purchase film equipment for Memorial Auditorium, which will be paid back over five years. The purpose of the \$234,333 interfund receivable is a result of a redevelopment project. As tax increments are collected in the future, the general fund will be paid back the amount transferred for the project costs. The purpose of the \$46,221 interfund receivable was for professional services relating to the tax increment district. As tax increments are collected in the future, the WRH fund will be paid back the amount transferred for the professional fees. The purpose of the \$912,769 interfund receivable was to purchase a building for the new liquor store, which will be paid back over ten years. The purpose of the \$318,540 interfund receivable was to provide tax increment financing funded internally for the hotel portion of the Event Center, which is structured as a pay-as-you-go agreement and will be paid back over a ten year period with tax increments collected.

NOTES TO FINANCIAL STATEMENTS **DECEMBER 31, 2017**

NOTE 4 - DETAILED NOTES ON ALL FUNDS (Continued)

E. Interfund receivables, payables, and transfers (Continued)

Interfund transfers at December 31, 2017 are as follows:

| | | Transfers In | Transfers Out |
|-----------------------------|----|-----------------|-----------------------|
| General fund | | 1,113,878 | \$ 43,412 |
| WRH fund | | 21,706 | |
| Nonmajor governmental funds | | 1,756,291 | 1,756,291 |
| Water fund | | 10,853 | 1000000000 0000 20 |
| Municipal wastewater fund | | 10,853 | 2 |
| Electric fund | | 134,400 | 638,878 |
| Liquor fund | | * | 225,000 |

| Total Long-term Debt | | | | | \$ | 15,419,824 |

General obligation bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital improvements. General obligation bonds have been issued for governmental activities. The original amount of general obligation bonds issued in prior years was \$10,320,000*.

General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as 15-year serial bonds with maturing amounts generally increasing each year.

General obligation bonds currently outstanding are as follows:

| Purpose | Interest Rates | Amount |
|-------------------------|----------------|-------------|
| Governmental activities | 1.28-3.53% | \$7,000,000 |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 4 - DETAILED NOTES ON ALL FUNDS (Continued)

G. Long-term debt (Continued)

General obligation bonds (Continued)

Annual debt service requirements to maturity for general obligation bonds are as follows:

^{*}This amount includes \$4,524,434 of special assessment debt which provided the funds for construction of streets in residential areas. These bonds will be repaid from amounts levied against the property owners benefited by this construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the City must provide resources to cover the deficiency until other resources, for example, foreclosure proceeds, are received. The amount of delinquent special assessments at December 31, 2017 is \$5,322.

General obligation sales tax revenue bonds

The City issues general obligation sales tax revenue bonds to provide funds for the remodel and construction of major capital improvements for the memorial auditorium and event center. The original amount of general obligation sales tax revenue bonds issued in prior years was \$3,850,000. General obligation sales tax revenue bonds are direct obligations and pledge the full faith and credit of the government.

General obligation revenue bonds currently outstanding are as follows:

| Purpose | Interest Rates | Amount |
|--------------------------|----------------|-------------|
| Business-type activities | 1.19-2.16% | \$1,090,000 |

Annual debt service requirements to maturity for general obligation revenue bonds are as follows:

| Year Ending December 31 | | Principal | nterest |
|----------------------------|----|-----------|--------------|
| 2018 | \$ | 540,000 | \$ 16,236 |
| 2019 | | 550,000 | 5,680 |
| | \$ | 1,090,000 | \$ 21,916 |
| | - | | |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 4 - DETAILED NOTES ON ALL FUNDS (Continued)

G. Long-term debt (Continued)

General obligation revenue notes

The City issues general obligation revenue notes where the government pledges income derived from charges for services to pay debt service. Revenue notes have been issued for business-type activities. The original amount of revenue notes issued was \$3,105,000.

| <u>Purpose</u> | Interest Rates | Amount | | |
|--------------------------|----------------|-------------|--|--|
| Business-type activities | 4.06% | \$1,840,000 | | |

Annual debt service requirements to maturity for general obligation revenue notes are as follows:

| | | Principal | | Interest |

In May 2007, the City issued a \$3,105,000 General Obligation Revenue Note, Series 2007A. The proceeds are from a \$50,000,000 Revenue Bond issued by the Midwest Consortium of Municipal Utilities originally issued in 2005. This note has been issued pursuant to and in full conformity with the Constitution and laws of the State of Minnesota for the purpose of providing money to finance the City's share of the costs of construction and installation of a water treatment plant (together with related work, improvements and equipment), that will be located approximately three miles north of Vermillion, South Dakota, and that will serve as part of a multi-state water system providing safe, reliable drinking water to the residents of the City and the surrounding area and is payable out of the debt service account of the water fund of the City, to which account have been pledged net revenues of the City's municipal water utility system. This note and interest coming due thereon shall be payable from the net revenues of the water utility system; however, the Series 2007A note shall not constitute a lien on the property comprising the water utility system. If net revenues of the water utility system are insufficient to provide for the obligations hereunder, this note shall constitute a general obligation of the City, and to provide moneys for the prompt and full payment of said principal installments and interest when the same become due, the full faith and credit and unlimited taxing powers of the City have been and are hereby irrevocably pledged. The water fund has recorded a \$1,840,000 liability for long-term debt (\$155,000 current, \$1,685,000 non-current).

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 4 - DETAILED NOTES ON ALL FUNDS (Continued)

H. Fund Balance/Net Position (Continued)

At December 31, 2017, the City reported \$2,130,904 of restricted fund balance on the governmental funds balance sheet as follows:

Restricted for:

| Total | \$ 2,130,904 |
|------------------|-----------------|
| Buffalo Ridge | 175,479 |
| Debt service | 1,954,144 |
| Capital projects | \$ 1,281 |

Minimum Unassigned Fund Balance Policy

The City Council has formally adopted a fund balance police for the General Fund.

The policy establishes a year-end target of unassigned fund balance for cash flow timing needs in the range of 35-50% of the subsequent years budget expenditures. At December 31, 2017, the unassigned fund balance for the General Fund was 52% of the subsequent year's budgeted expenditures.

Restricted assets

The balances of the restricted asset accounts in the City's funds are as follows:

| Customer deposits - Center for Active Living | \$ 625 |
|--|---------------|
| Customer deposits - water | 24,615 |
| Customer deposits - municipal wastewater | 28,030 |
| Customer deposits - electric | 133,715 |
| Customer deposits - total | \$ 186,985 |

NOTE 5 - OTHER INFORMATION

A. Risk management

The City established the insurance fund to account for losses related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disaster. In 2009, the City raised its deductible from \$50,000 to \$75,000. The insurance fund provides for losses up to \$75,000 for each claim (annual aggregate is \$75,000 with an additional \$1,000 per claim after the annual aggregate has been met). The City purchases commercial insurance coverage above the deductible through the League of Minnesota Cities Insurance Trust with other cities in the State, a public entity risk pool currently operating as a common risk management and insurance program.

The League of Minnesota Cities Insurance Trust is self-sustaining through member premiums and re-insures through commercial companies for excess claims. The City is covered through the pool for any claims incurred but unreported, but retains risk for the deductible portion of its insurance policies.

As of December 31, 2017, the City did not have any claims which were probable and measurable and therefore no liability is recorded in the financial statements presented. The City did not have claims which exceeded its deductible during 2017. The following claims were actual amounts paid in each respective year, and represent amounts which were less than the City's deductibles.

| | 2017 | 2016 | 2015 | | |
|-------------|----------|-----------|----------|--|--|
| Claims Paid | \$ 8.373 | \$ 33,749 | \$ 9,354 | | |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

A. Risk management (Continued)

The City has an internal service fund called safety promotion/loss control. This fund was set up to account for and finance the City's uninsured risk of loss. This risk of loss is as follows:

- The amount of the deductible.
- Specific property items, which are of low risk for damage, that are uninsured. (This property list is included in the insurance manual).
- This fund will absorb the annual fluctuations in the cost of workers compensation.
- This fund is to be used to promote health, safety and fitness. Ten percent of insurance refunds, which
 are receipted into this fund, are set aside to promote health and safety.
- This fund is to be used for purchases of security-type equipment for City buildings.

All funds of the City participate in this program and make a payment to the safety promotion/loss control fund based on the amount of savings each fund incurred by the selection of the higher deductible amount.

Due to a couple high health insurance claim years, the City opted out of being partially self-funded and joined in a State of Minnesota Health Insurance Plan known as Public Employees Insurance Program (PEIP). The City renews on a calendar year basis, which allows for better timing when budgeting subsequent year's premium changes. The City offers employees three plans, including a high-deductible plan, which results in lower overall costs to the City. For 2017, the City had slight premium increases (3.1%) overall to all three plans.

B. Contingent liabilities

Commitments for capital projects

Commitments for current and future capital projects have been assigned in their respective funds as of December 31, 2017. Financial resources are available to fund the total amount of unexpended authorizations.

Litigation

The City is, from time to time, involved in lawsuits arising in the ordinary course of its business that, in the opinion of management, will not have a material effect on the City's results of operations. The City is not currently involved in any suits.

C. Joint ventures

Cable 3 television

The City and Independent School District (ISD) 518, Worthington, entered into a joint powers agreement for the purpose of operating Worthington Cable 3 Television Public Access Channel. The City shall remit to the Board all franchise fees and subscriber payments which are collected by two local cable companies pursuant to the franchise agreement between the City and respective cable companies. The amount remitted approximates the amount budgeted by the Board, and no material surplus or deficit exists or is anticipated. Audited financial statements were not available for Cable 3 television for the year ending December 31, 2017. However, internal statements were issued and reflected a positive financial position at year-end. There were no related party transactions for the year.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

C. Joint ventures (Continued)

Public transportation

The City and Nobles County entered into a joint powers agreement for purposes of jointly and cooperatively operating, administering, promoting and managing public transportation within Nobles County, including the City of Worthington. The governing body shall consist of two Council members and the Administrator of the City of Worthington, and two Commissioners and the Administrator of Nobles County. In addition, one additional atlarge member will be appointed by the aforesaid members. The City's financial contribution to the joint powers board was \$40,180 per year, which approximates the amount the City has subsidized the previous taxi service in recent years. This contribution was used for operating costs. However, beginning in 2004, taxi fares will replace the City's obligation. The City retains no equity position in the joint venture. There were no audited financial statements available for the year ending December 31, 2017.

D. Post-employment benefits

Several employee groups have signed up for the Health Care Savings Plan through the Minnesota State Retirement System.

The City allows employees to stay on its group health insurance after retirement until they reach Medicare age. The retired employees are responsible for paying 100% of their premiums. The City had one retiree on its plan at the end of 2017. However, the City's carrier indicated the retirees had no impact on the rate for renewal. Therefore the City does not have any post-employment liability recorded in the financials.

The following represent changes in aggregate liabilities for health insurance premiums:

| Health insurance premiums | 2017 | | 2016 | 2015 |
|--------------------------------------|-------------|----|------------------|-------------|
| Liability balance, beginning of year | \$ 3,625 | S | 3,625 | \$ 3,625 |
| Health insurance premiums paid | - | | (-) | - |
| Liability balance, end of year | \$ 3,625 | \$ | 3,625 | \$ 3,625 |

E. Public Employees Defined benefit pension plans-statewide

Plan description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

 A. General Employees Retirement Plan (General Employees Plan(accounted for in the General Employees Fund))

All full-time and certain part-time employees of the City of Worthington are covered by the General Employees Plan. General Employees Plan members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.

Public Employees Police and Fire Plan (Police and Fire Plan(accounted for in the Police and Fire Fund))

The Police and Fire Plan, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the Police and Fire Plan also covers police officers and firefighters belonging to local relief associations that elected to merge with and transfer assets and administration to PERA.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

E. Public Employees Defined benefit pension plans-statewide (Continued)

1. Plan description (Continued)

Benefits provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90 percent funded for two consecutive years are given 2.5 percent increases. Members in plans that have not exceeded 90 percent funded, or have fallen below 80 percent, are given one percent increases.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

A. General Employees Plan Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

B. Police and Fire Plan Benefits

Benefits for Police and Fire Plan members first hired after June 30, 2010 but before July 1, 2014 vest on a prorated basis from 50 percent after five years up to 100 percent after ten years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014 vest on a prorated basis from 50 percent after ten years up to 100 percent after twenty years of credited service. The annuity accrual rate is 3 percent of average salary for each year of service. For Police and Fire Plan members who were first hired prior to July 1, 1989 a full annuity is available when age plus years of service equal at least 90.

2. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

A. General Employees Fund Contributions

Basic Plan members and Coordinated Plan members were required to contribute 9.1 percent and 6.5 percent, respectively, of their annual covered salary in 2017. The City was required to contribute 11.78 percent of pay for Basic Plan members and 7.5 percent for Coordinated Plan members in calendar year 2017. The City's contributions to the General Employees Fund for the year ended December 31, 2017 were \$323,530. The City's contributions were equal to the required contributions as set by state statute.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

E. Public Employees Defined benefit pension plans-statewide (Continued)

Contributions (Continued)

B. Police and Fire Fund Contributions

Plan members were required to contribute 10.8 percent of their annual covered salary in calendar year 2017. The City was required to contribute 16.2 percent of pay for members in calendar year 2017. The City's contributions to the Police and Fire Fund for the year ended December 31, 2017, were \$273,294. The City's contributions were equal to the required contribution as set by state statute.

Pension costs

A. General Employees Fund Pension Costs

At December 31, 2017, the City reported a liability of \$3,487,574 for its proportionate share of the General Employees Fund's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$6 million to the fund of 2017. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$3,487,574. The net pension liability was measured as of June 30, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll dates from July 1, 2016, through June 30, 2017 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2017 the City's proportion was 0.0670 percent which was a decrease of 0.0006 percent from its proportion measured as of June 30, 2016.

For the year ended December 31, 2017, the City recognized pension expense of \$657,080 for its proportionate share of the General Employees Plan's pension expense. In addition, the City recognized an additional \$1,607 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$6 million to the General Employees Fund.

At December 31, 2017, the City reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| 0 | utflows of | 1 | Deferred nflows of Resources |
|----|------------|-----------------------------|---|
| \$ | - | \$ | 129,884 |
| | 266,600 | | 2 " |
| | 4,166 | | - |
| | 140,061 | | 101,277 |
| | 160,891 | | 2 |
| \$ | 571,718 | \$ | 231,161 |
| | 0 | 4,166 140,061 160,891 | Outflows of Resources R \$ - \$ 266,600 4,166 140,061 160,891 |

\$160,891 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

| 2019 | | 277,952 | |
| 2020 | | (43,839) | |
| 2021 | | (187,794) | |
| Thereafter | | | |
| Total | \$ | 179,666 | |

A. Police and Fire Fund Pension Costs

At December 31, 2017, the City reported a liability of \$1,216,927 for its proportionate share of the Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2016 through June 30, 2017 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2017, the City's proportion was 0.1660 percent which was an increase of 0.006 percent from its proportion measured as of June 30, 2016. The City also recognized \$15,030 for the year ended December 31, 2017 as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota's onbehalf contributions to the Police and Fire Fund. Legislation was passed in 2013 required the State of Minnesota to begin contribution \$9 million to the Police and Fire Fund each year, starting in fiscal year 2014.

For the year ended December 31, 2017, the City recognized pension expense of \$760,891 for its proportionate share of the Police and Fire Plan's pension expense.

At December 31, 2017, the City reported its proportionate share of the Police and Fire Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------------|-------------------------------------|
| Differences between expected and actual economic experience | \$ - | \$ 540,627 |
| Changes in actuarial assumptions | 2,933,053 | 3,201,113 |
| Differences between projected and actual investment earnings | 20,556 | 1,000 |
| Changes in proprtion | 33,443 | 13,952 |
| Contributions paid to PERA subsequent to the measurement date | 140,904 | (4) |
| Totals | \$ 3,127,956 | \$ 3,755,692 |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

E. Public Employees Defined benefit pension plans-statewide (Continued)

3. Pension costs (Continued):

\$140,904 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended | Pension | | |
|--------------|---------|-------------|--|
| December 31: | Expe | ense Amount | |
| 2018 | \$ | 31,668 | |
| 2019 | | 31,667 | |
| 2020 | | (47,521) | |
| 2021 | | (161,298) | |
| 2022 | | (623,156) | |
| Thereafter | | | |
| Total | \$ | (768,640) | |

4. Actuarial assumptions

The total pension liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions:

| Inflation | 2.50% per year |
|------------------------------|----------------|
| Active Member Payroll Growth | 3.25% per year |
| Investment Rate of Return | 7.50% |

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP 2014 tables for all plans for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases for retirees are assumed to be one percent per year for the General Employees Plan through 2044 and Police and Fire Plan through 2064 and then 2.5 percent thereafter for both plans.

Actuarial assumptions used in the June 30, 2017 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2015. The most recent five-year experience study for Police and Fire Plan was completed in 2016.

There following changes in actuarial assumptions occurred in 2017:

General Employees Fund

- The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all
 years to 1.0 percent per year through 2044 and 2.5% per year thereafter.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

E. Public Employees Defined benefit pension plans-statewide (Continued)

Actuarial assumptions (Continued)

Police and Fire Fund

- Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates.
- Assumed rates of retirement were changed, resulting in fewer retirements.
- The Combined Service Annuity (CSA) load was 30 percent for vested and non-vested deferred members. The CSA has been changed to 33 percent for vested and non-vested deferred members.
- The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees.
- Assumed termination rates were decreased to 3.0 percent for the first three years of service.
 Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
- Assumed percentage of married female members was decreased from 65 percent to 60 percent.
- Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females.
- The assumed percentage of female members electing Joint Survivor annuities was increased.
- Assumed post-retirement benefit increase rate was changed from 1.0 percent for all years to 1.0
 percent per year through 2064 and 2.5 percent thereafter.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Long-term Expected Real Rate of Return |
|----------------------|----------------------|--|
| Domestic Stocks | 39.00% | 5.10% |
| International Stocks | 19.00% | 5.30% |
| Bonds | 20.00% | 7.50% |
| Alternative Assets | 20.00% | 5.90% |
| Cash | 2.00% | 0.00% |
| | 100.00% | |
| | | |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

E. Public Employees Defined benefit pension plans-statewide (Continued)

Discount rate

The discount rate used to measure the total pension liability in 2017 was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net positions of the General Employees Fund and the Police and Fire Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

6. Pension liability sensitivity

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Sensitivity of Net Pension Liability at Current Single Discount Rate (in thousands)

| | General Employees Fund | | Police and Fire Fund | | |
|-----------------------|------------------------|-------------|----------------------|-------------|--|
| 1% Lower | 6.50% | \$9,901,956 | 6.50% | \$2,542,668 | |
| Current Discount Rate | 7.50% | 6,383,934 | 7.50% | 1,350,119 | |
| 1% Higher | 8.50% | 3,503,794 | 8.50% | 365,604 | |

Pension plan fiduciary net position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

F. Defined benefit pension plans-volunteer fire relief association

Plan description

All members of the City of Worthington Fire Department are covered by a defined benefit plan administered by the City of Worthington Fire Department Relief Association (the Association). As of December 31, 2017, the plan covered 37 active firefighters, 12 retired participants and 2 vested terminated fire fighters whose pension benefits are deferred. The plan is a single employer retirement plan and is established and administered in accordance with Minnesota statute, chapter 69.

The Association maintains a separate Special Fund to accumulate assets to fund the retirement benefits earned by the Department's membership. Funding for the Association is derived from an insurance premium tax in accordance with the Volunteer Firefighter's Relief Association Financing Guidelines Act of 1971 (chapter 261 as amended by chapter 509 of Minnesota statutes 1980). Funds are also derived from investment income.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

F. Defined benefit pension plans-volunteer fire relief association (Continued)

Benefits provided

A fire fighter who completes at least 20 years as an active member of the Department is entitled, after age 50, to a full service pension upon retirement.

The bylaws of the Association also provide for an early vested service pension for a retiring member who has completed fewer than 20 years of service. The reduced pension, available to members with 10 years of service, shall be equal to 60 percent of the pension as prescribed by the bylaws. This percentage increases 4 percent per year so that at 20 years of service, the full amount prescribed is paid. Members who retire with less than 20 years of service and have reached the age of 50 years and have completed at least 10 years of active membership are

entitled to a reduced service pension not to exceed the amount calculated by multiplying the member's service pension for the completed years of service times the applicable non-forfeitable percentage of pension.

Contributions

Minnesota statutes, chapter 424 and 424A authorize pension benefits for volunteer fire relief associations. The plan is funded by fire state aid, investment earnings and, if necessary, employer contributions as specified in Minnesota statutes and voluntary City contributions (if applicable). The State of Minnesota contributed \$70,095 in fire state aid to the plan on behalf of the Department for the year ended December 31, 2017, which was recorded as a revenue. Required employer contributions are calculated annually based on statutory provisions. The City's statutorily-required contributions to the plan for the year ended December 31, 2017 were \$7,740. The City's contributions were equal to the required contributions as set by state statute. The City made no voluntary contributions to the plan. Furthermore, the firefighter has no obligation to contribute to the plan.

Pension costs

At December 31, 2017 the City reported a net pension liability (asset) of (\$7,230) for the plan. The net pension liability (asset) was measured as of December 31, 2017. The total pension liability used to calculate the net pension liability (asset) in accordance with GASB 68 was determined by Nyhart, applying an actuarial formula to specific census data certified by the Department as of December 31, 2017.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

F. Defined benefit pension plans-volunteer fire relief association

Pension costs (Continued)

The following table presents the changes in net pension liability (asset) during the year.

| | Total Pension Liability (a) | Ν | Plan Fiduciary let Pension (b) | | Net Pension bility (Asset) (a-b) |
|---------------------------------------|--------------------------------------|----|---|----|---|
| Beginning balance January 1, 2017 | \$ 1,226,091 | \$ | 1,150,728 | \$ | 75,363 |
| Changes for the year | | | | | |
| Service cost | \$ 40,709 | \$ | - | \$ | 40,709 |
| Interest on pension liability (asset) | 56,846 | | 1.70 | | 56,846 |
| Changes if benefit terms | 22,390 | | 12 - 13 | | 22,390 |
| Differences between expected and | | | | | |
| actual experience | 57,501 | | - | | 57,501 |
| Change of assumptions | (1,135) | | 243 | | (1,135) |
| Benefit payments, including | to Dominatio | | | | |
| refunds of member contributions | (259,774) | | (259,774) | | 2 |
| Contributions (employer) | | | 2,698 | | (2,698) |
| Contributions (State) | - | | 70,095 | | (70,095) |
| Net investment income | - | | 202,698 | | (202,698) |
| Administrative costs | - | _ | (16,587) | - | 16,587 |
| Total net changes | \$ (83,463) | S | (870) | \$ | (82,593) |
| Ending balance December 31, 2017 | \$ 1,142,628 | \$ | 1,149,858 | \$ | (7,230) |

For the year ended December 31, 2017 the City recognized pension revenue of \$70,095 and pension expense of \$62,929.

At December 31, 2017, the City reported deferred inflows of resources and deferred outflows of resources, its contributions subsequent to the measurement date, related to pension from the following sources:

| | Deferred Outflows of Resources | | 15 | Deferred Inflows of Resources | |
|--|--------------------------------------|---------|----|-------------------------------------|--|
| Differences between expected and actual experience | \$ | 51,112 | \$ | 47,109 | |
| Changes of assumptions | | 25,910 | | 1,009 | |
| Net difference between projected and actual earnings on plan investments | | 37,523 | s | 153,285 | |
| Total | \$ | 114,545 | \$ | 201,403 | |

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

F. Defined benefit pension plans-volunteer fire relief association (Continued)

Pension costs (Continued)

Deferred outflows of resources totaling \$114,545 related to pensions resulting from the City's differences between expected and actual experience will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Deferred inflows of resources totaling \$201,403 related to the net difference between projected and actual earnings on pension plan investments will be recognized for its impact on the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows and inflows of resources related to the plan will be recognized in pension expense as follows:

| Year Ended December 31: | Pension Expense Amou | |
|----------------------------|-------------------------|-----------|
| 2018 | \$ | (21,156) |
| 2019 | | (21, 157) |
| 2020 | | (39,918) |
| 2021 | | (28,891) |
| 2022 | | 1,161 |
| Thereafter | | 23,103 |
| Total | \$ | (86,858) |

Actuarial assumptions

The total pension liability at December 31, 2017 was determined using the entry age normal actuarial cost method and the following actuarial assumptions:

Retirement eligibility at 100 percent service pension at age 50 with 20 years of service, early vested retirement at age 50 with 10 years of service vested at 60 percent and increased by 4 percent for each additional year of service up to 20 and eligibility for deferred service pension payable at age 50 with 20 years of service.

| Salary increases | N/A |
|------------------------------|-------|
| Cost of living increases | N/A |
| Investment rate of return | 5.00% |
| 20 year municipal bond yield | N/A |

The mortality table used to measure liability has been changed from using a fully generational improvement scale based on assumptions from the 2016 Social Security Trustees Report to using a fully generational improvement scale based on assumptions from the 2017 Social Security Trustees Report. The mortality table (RP-2014 Blue Collar) and the year in which improvements begin (2006) remains the same. This results in a decrease in liability and normal cost. The lump sum and monthly benefits have been updated to \$2,864 and \$347 as of January 1, 2017. There have been no other changes to the plan provisions since the last valuation. This results in an increase in liability and normal cost.

The 5.0% long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using the plan's target investment allocation along with long-term return expectations by asset class. Inflation expectations were applied to derive the nominal rate of return for the portfolio.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

F. Defined benefit pension plans-volunteer fire relief association

Actuarial assumptions (Continued)

| Asset Class | Target Allocation | Expected Real Rate of Return |
|------------------------|----------------------|---------------------------------|
| Domestic Equity | 35.00% | 5.27% |
| International Equity | 20.00% | 5.17% |
| Domestic Fixed Income | 10.00% | 0.00% |
| Alternative Investment | 10.00% | 2.73% |
| Cash | 25.00% | 0.00% |
| | 100.00% | |

Discount rate

The discount rate used to measure the total pension liability was 5.0%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension liability sensitivity

The following presents the net pension liability, calculated using the discount rate of 5.0%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

| | 1% | Decrease | | | 19 | % Increase |
|-----------------------|-------|-------------|------|------------|------|--------------|
| | in Di | scount Rate | Disc | count Rate | in D | iscount Rate |
| | | 4.0% | | 5.0% | | 6.0% |
| Net pension liability | \$ | 46,533 | \$ | (7,230) | \$ | (58,577) |

G. Public Employees Defined Contribution Plan

The mayor and five council members of the City of Worthington are covered by the Defined Contribution Plan, a multiple-employer deferred compensation plan administered by PERA. The Defined Contribution Plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. *Minnesota Statutes*, Chapter 353D.03, specifies plan provisions, including the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5 percent of salary which is matched by the elected official's employer. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2 percent of employer contributions and twenty-five hundredths of 1 percent (0.0025) of the assets in each member's account annually.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

G. Public Employees Defined Contribution Plan (Continued)

Total contributions made by the City of Worthington during fiscal year 2017 were:

| Contributio | n Amount | Percentage of (| Covered Payroll | Required |
|-------------|----------|-----------------|-----------------|----------|
| Employees | Employer | Employees | Employer | Rate |
| \$2,444 | \$2,444 | 5.00% | 5.00% | 5.00% |

H. Tax Abatement

The City has entered into five Tax Increment Financing agreements which meet the criteria for disclosure under Governmental Accounting Standards Board Statement No. 77 Tax Abatement Disclosures. The City's authority to enter into these agreements comes from Minnesota Statute 469. The City entered into these agreements for the purpose of economic development.

Under each agreement, the City and developer agree on an amount of development costs to be reimbursed to the developer by the City through tax revenues from the additional taxable value of the property generated by the development (tax abatement). A "pay-as-you-go" note is established for this amount, on which the City makes payments for a fixed period of time with available tax increment revenue after deducting for certain administrative costs.

During the year ended December 31, 2017, the City generated \$181,912 in tax increment revenue and made \$140,154 in payments to developers.

All but one agreement exceeded ten percent of the total tax increment generated throughout the year.

- TIF District No. 11 was established in 2005 for the purpose of administration and site preparation costs
 for a twenty-four unit apartment complex. Under the agreement, up to \$539,600 of development costs
 will be reimbursed through tax increment over a 25 year period. During the year ended December 31,
 2017, the City generated \$20,266 of tax increment revenue and made payments on the pay-as-you-go
 note of \$9,752. The note's balance at year end was \$210,918.
- TIF District No. 12 was established in 2006 for the purpose of administration and site preparation costs
 for a twenty-one lot single family housing development. Under the agreement, up to \$1,100,000 of
 development costs will be reimbursed through tax increment over a 25 year period. During the year
 ended December 31, 2017, the City generated \$33,295 of tax increment revenue and made payments on
 the pay-as-you-go note of \$20,489. The note's balance at year end was \$234,333.
- TIF District No. 13 was established in 2008 for the purpose of administration and infrastructure improvements to accommodate the entity's facility. Under the agreement, up to \$481,000 of development costs will be reimbursed through tax increment over an 8 year period. During the year ended December 31, 2017, the City generated \$25,425 of tax increment revenue and made payments on the pay-as-you-go note of \$3,239. The note's balance at year end was \$192,938.
- TIF District No. 14 was established in 2010 for the purpose of constructing a 30 townhome housing project. Under the agreement, up to \$600,496 of development costs will be reimbursed through tax increment over a 25 year period. During the year ended December 31, 2017, the City generated \$21,072 of tax increment revenue and made payments on the pay-as-you-go note of \$18,037. The note's balance at year end was \$481,479.
- TIF District No. 15 was established in 2012 for the purpose of constructing a 76 unit hotel. Under the
 agreement, up to \$609,438 of development costs will be reimbursed through tax increment over an 8 year
 period. During the year ended December 31, 2017, the City generated \$81,854 of tax increment revenue
 and made payments on the pay-as-you-go note of \$65,515. The note's balance at year end was
 \$318,540.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017

NOTE 5 - OTHER INFORMATION (Continued)

H. Tax Abatement (Continued)

The City also entered into a tax abatement agreement with Nobles County and Independent School District (ISD) #518, through a program initiated by the Nobles Home Initiative, under Minnesota State Statute 469.1813 Subdivision 8. The program is intended to encourage the construction on new owner occupied and rental residential housing units. Eligible projects are eligible to receive 100% tax abatement of the City's share of the increased real estate taxes resulting from the newly constructed housing unit, for a period of five years. During 2017, taxes abated for thirteen eligible projects within the City corporate limits was \$9,849. The County and ISD #518 abated \$6,750 and \$2,861, respectively, for the eligible projects.

The City has several abatement agreements established under Minnesota State Statute 469.1812 as follows:

- A Tax Abatement agreement was awarded by the City Council on December 14, 2009. The abatement is
 for eligible expenditures related to the redevelopment of 607 Tenth Street and was awarded in
 compliance with the guidelines of the City's Tax Abatement Guidelines. The abatement is for \$13,500 or
 10 years, whichever occurs first. As of December 31, 2017, the entity has been given/awarded \$6,771, of
 which \$989 was abated in 2017.
- A Tax Abatement agreement was awarded by the City Council on May 24, 2010. The abatement is for eligible expenditures related to the redevelopment of 511 10th Street and was awarded in compliance with the guidelines of the City's Tax Abatement Guidelines. The abatement is for \$80,000 or 15 years, whichever occurs first. As of December 31, 2017, the entity has been given/awarded \$6,917, of which \$791 was abated in 2017.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expend for specified purposes.

Memorial Auditorium Fund

Established to account for the operation of the City's Memorial Auditorium.

PD Task Force Fund

Established to account for revenues and expenditures for law enforcement funds available through judgments and seizure sales.

Sales Tax Revenue Fund

Established to account for sales, use and excise tax revenues and transfers to capital project related to the sales tax referendum projects. These projects include the addition/remodeling of the Memorial Auditorium and the construction of an Event Center.

Event Center Fund

Established to account for the operations and maintenance of the City's Event Center. Financing is provided by rental fees.

Recreation Fund

Established to account for the operations and maintenance of the City's recreational facilities programs including: all city owned parks, playgrounds, swimming pool and skating rinks. Financing is provided by general property taxes and user charges.

Economic Development Authority Fund

Established to account for the operations and maintenance of the City's Industrial Park. Financing is provided by general property taxes.

DEBT SERVICE FUNDS

The debt service funds are used to account for the accumulation of resources for, and the payment of general long-term debt principal and interest.

The following debt service funds are presently established:

General Obligation Tax Increment Revenue: Series 2003B District #10

Other Bonds:

General Obligation Sales Tax Revenue: Series 2010B Series 2012B

NONMAJOR GOVERNMENTAL FUNDS (Continued)

CAPITAL PROJECTS FUNDS

Capital projects funds are created to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary and special assessments.

Municipal Buildings Fund

This fund accounts for the improvement and maintenance of City buildings.

Prairie View Limited Fund

This fund accounts for construction costs relating to the development of 24 rental units of low and moderate income housing.

TI Dist #7, Redevelopment, Amendment 5 Fund

This fund accounts for street, storm sewer and water main improvements and site preparation costs within Darling's Third Tax Increment District.

Prairie Expo Improvement Fund

This fund accounts for infrastructure improvements for the Prairie Expo site.

C&J Housing Project Fund

This fund accounts for site preparation costs for a 25 unit assisted living senior citizen housing complex.

Okabena Estates Fund

This fund accounts for administration and site preparation costs for a 24 unit apartment complex.

CCSI Redevelopment Fund

This fund accounts for administration and site preparation for a 21 lot single family housing development.

Bedford Technologies Project Fund

This fund accounts for administration and infrastructure improvements to accommodate the company's 27th Street facility.

Newcastle Townhomes Fund

This fund accounts for the activity related to the construction of a 30 Townhome housing project.

Aquatic Center Facility Fund

This fund accounts for the activity related to the construction of a new aquatic center facility.

Hotel TIF #15 Fund

This fund accounts for the activity related to the Hotel Tax Increment Financing District.

Northland Mall TIF #16 Fund

This fund accounts for the activity related to the redevelopment of the former Northland Mall site and development of a mixed-use project in the City.

NONMAJOR ENTERPRISE FUNDS

The enterprise funds are established to account for operations financed and operated in a manner similar to private business enterprises. The intent is that costs of providing the goods or services to the general public on a continuing basis are financed or recovered primarily through user charges or where the City has decided that periodic determination of net income is appropriate for accountability purposes.

Storm Water Management Fund

This fund was established to account for the operations of the storm drains and storm lift stations.

Street Lighting Fund

This fund was established to account for the operations of the municipal street lighting.

Cable Television Fund

This fund was established to account for the franchise fees, subscriber fees and legal negotiations with the local cable television companies.

STATISTICAL SECTION

This part of the City of Worthington's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements and note disclosures say about the city's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the city's financial performance and well-being have changed over time.

Table I – Net Position by Component

Table II - Changes in Net Position

Table III - Fund Balances - Governmental Funds

Table IV - Changes in Fund Balances - Governmental Funds

Table V – Program Revenues by Function/Program

Table VI – General Governmental Tax Revenues by Source

Revenue Capacity

These schedules contain information to help the reader assess the city's most significant local revenue source, the property tax.

Table VII – Assessed Value and Estimated Value of Taxable Property

Table VIII - Property Tax Rates - Direct and Overlapping Governments

Table IX - Principal Property Taxpayers

Table X - Property Tax Levies and Collections

Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the city's ability to issue additional debt in the future.

Table XI - Ratios of Outstanding Debt by Type

Table XII - Ratios of Net General Bonded Debt Outstanding

Table XIII - Direct and Overlapping Governmental Activities Debt

Table XIV – Legal Debt Margin Information

Table XV - Pledged Revenue Coverage

STATISTICAL SECTION (Continued)

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the city's financial activities take place.

Table XVI – Demographic and Economic Statistics Table XVII – Principal Employers

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the city's financial report relates to the services the city provides and the activities it performs.

Table XVIII – Full-time Equivalent City Government Employees by Function Table XIX – Operating Indicators by Function/Program Table XX – Capital Asset Statistics by Function/Program

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source: Department of Assessor, Nobles County

Note: Property in Nobles County is reassessed every year on average. The county assesses property at approximately 100 percent of actual value for commercial, industrial and agricultural property and 93 percent for residential property. Estimated actual value is calculated by dividing assessed value by those percentages.

¹Includes tax-exempt property.

Overlapping rates are those of local and county governments that apply to property owners within the City of Worthington. Not all overlapping rates apply to all City of Worthington property owners (e.g., the rates for special districts apply only to the proportion of the City's property owners whose property is located within the geographic boundaries of the special district.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF DECEMBER 31, 2017 (Unaudited)

| GOVERNMENTAL UNIT | <u> </u> | DEBT JTSTANDING | ESTIMATI PERCENTA APPLICAB | AGE | STIMATED SHARE OF /ERLAPPING DEBT |
|--|----------|--------------------|----------------------------------|-----|--|
| Debt repaid with property taxes | | | | | |
| Independent School District #518 | \$ | 32,725,000 | 39.36 | 6 % | \$ 12,880,560 |
| Nobles County | | 22,450,000 | 19.73 | 3 | 4,429,385 |
| Southwest Regional Development Commission ² | | (7) | 19.73 | 3 | 15 |
| Subtotal, overlapping debt | | | | | \$ 17,309,945 |
| City of Worthington's direct debt ³ | | | | | 8,154,960 |
| Total direct and overlapping debt | | | | | \$ 25,464,905 |

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Worthington. This process recognizes that, when considering the city's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

¹For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value. This approach was also used for other debt.

²Southwest Regional Development Commission serves a nine county area, thus the debt outstanding is proportioned accordingly to reflect the obligation of the city's overlapping area.

³Excludes debt payable from enterprise revenue.

LEGAL DEBT MARGIN INFORMATION LAST TEN YEARS (Unaudited)

Legal Debt Margin Calculation for Fiscal Year 2017:

| Assessed value | \$ 694,980,300 |
|--|-------------------|
| Debt limit (3% of assessed value) | \$ 20,849,409 |
| Debt applicable to limit: Total bonded debt Less: Amount set aside for | \$ 8,154,960 |
| repayment of general obligation debt | (8,154,960) |
| Total net debt applicable to limit | \$ 2 |
| Legal debt margin | \$ 20,849,409 |

| | Fiscal Year | | | | | | | | | | | | |
|---|-------------|--------------|----|--------------|----------------|--------------|----|--------------|--|--|--|--|--|
| | _ | 2017 | | 2016 | \$ | 2015 | 8- | 2014 | | | | | |
| Debt limit | \$ | 20,849,409 * | \$ | 20,282,730 * | \$ | 17,336,892 * | \$ | 16,683,750 ^ | | | | | |
| Total net debt applicable to limit | | | | | | | 7 | 727 | | | | | |
| Legal debt margin | \$ | 20,849,409 | \$ | 20,282,730 | \$ | 17,336,892 | \$ | 16,683,750 | | | | | |
| Total net debt applicable to the limit as a percentage of debt limit | | 0.00% | | 0.00% | | 0.00% | | 0.00% | | | | | |

Note: Under State Finance law, the City's outstanding general obligation debt should not exceed 15 percent of the total assessed property value. However, the City has established a more conservative internal limit that matches Minnesota Statutes. Per Minnesota Statute 475.53, the debt limit is 3%. This means that the total amount of bonds, notes or any other type of general obligation issued or outstanding will not be greater than the three percent limit mentioned above. The following types of obligations are not considered in determining the debt limitation: certain revenue bonds, tax increment bonds and permanent improvement bonds. As seen in the above calculation the City's applicable bonded debt is well below the required debt limit.

^{*}Per Minnesota Statute 475.53, the debt limit increased from 2% to 3% in 2008.

Sources: Various city departments

Note: Indicators are not available for the cable television function.

¹The City of Worthington provided this service starting in 2005 with no additional charge, whereas in previous years this was arranged by the Worthington Chamber of Commerce for a nominal fee. Starting in 2011, the City charged a nominal fee.

²Starting in 2010 the code enforcement (community service officer) activity is accounted for under the public safety program.

³Starting in 2014 the Memorial Auditorium activity is accounting for under culture and recreation program.

Starting in 2015, golf course information was not available. The course was decommissioned starting in 2016.

Starting in 2017 the debris from sweeping is no longer tracked. The debris is dumped and disposed of by a private party.

Sources: Various city departments

¹This facility and its components are shared with Nobles County and the city rents space from the county.

²Starting in 2004 the golf course is accounted for in the recreation program.

³The city generates electricity for Missouri Basin and in turn is billed for usage.

⁴Starting in 2007 the parking systems activity is accounted for in the general fund.

Note: Indicators are not available for the industrial wastewater facility and cable television functions.
